Should America be a Monarchy? - Curtis Yarvin

Walk-Ins Welcome with Bridget Phetasy

5.47K subscribers ----- 18,126 views Feb 6, 2025

Bridget sits down with Curtis Yarvin, political theorist and writer formerly known as Mencius Moldbug. They
discuss the road that brought Curtis to this point, his debate with Ilya Shapiro, whether capitalism requires

democracy, whether oligarchs are more concerned with the outcomes of power rather than power itself, the Arab Spring, debating "isms", why he believes the most peaceful and stable form of government is the monarchy, the truth about revolutions, why he's selective about his conspiracy theories, the Great No, the power of the executive branch, and why all Libs are basically conformists. Check out his Substack, Gray Mirror - <https://bit.ly/WiW-GrayMirror>

Walk-Ins Welcome with Bridget Phetasy - Podcast

Bridget Phetasy admires grit and authenticity. On Walk-Ins Welcome, she talks about the beautiful failures and frightening successes of her own life and the lives of her guests. She doesn't conduct interviews - she has conversations. Conversations with real people about the real struggle and will remind you that we can laugh in pain and cry in joy but there's no greater mistake than hiding from it all. By embracing it all, and celebrating it with the stories she'll bring listeners, she believes that our lowest moments can be the building blocks for our eventual fulfillment.

PHETASY IS a movement disguised as a company.

We just want to make you laugh while the world burns.

WarStrike - Episode 84 ----- Buckle down for a deep dive into Carl Schmitt's political theory as Warren and Striker's continue WarStrike's series on German political philosophers. The ultimate politics is race and identity where the state serves its people according to Schmitt, the greatest critic of liberalism of the 20th century.

Refusing to play into the game of depoliticized Universalism or Liberalism means world powers default to Nazism and Fascism, or group competition that challenges Jewish global hegemony.

Warren and Striker explain why, contrary to Keith Woods' article, national socialism is key to nationalism, and the sacrificial reality and short supply of political revolutionaries with personal anecdotes from Striker.

Next week, the Supreme Court will decide if white people can sue under the Civil Rights Act, challenging the higher standard in place for whites proving discrimination based on their race. American whites' experience with economic terrorism through doxxing and threat to income as well as witnessing the US-sponsored genocide and the starvation

effects of sanctions against other nations are causing a rapid loss of faith in the western "free and democratic" liberal system, with eerie parallels between the Weimer Republic and the United States. China, Putin, and even neocons are using Schmittian philosophy to remain politically relevant.

Abstract

At the end of the Cretaceous, the massive Deccan trap (DT) volcanic eruptions are regarded as the primary driver of global climate deterioration. Accurate age models are key to unravel the sequence of events related to DT volcanism onset and effects on the global climate system. We establish a direct geochemical link between DT volcanism as recorded in marine osmium isotopic data and global climate change documented in benthic foraminifera carbon and oxygen isotope records. Based on our state-of-the-art astronomically calibrated age model, two major shifts in marine 187Os/188Os at 66.49 and 66.28 million years ago are contemporaneous with major eruption phases of the DT and disruptions of the global carbon cycle. Geochemical records and modeling suggest larger erupted volumes with high volatile emissions for the early phase of DT volcanism and point to differing emissions of SO₂ and CO₂ during the observed marine osmium shifts with diverse effects on the global climate system.

harms way by overcautious parenting most likely, an
unsurmountable obstacle in the way of growing out
of that] and can no better than extract some

themselves.

concern of Rstrat missionaries, leftie as much as
gggrisdjinn versions, over Kstrat [throwaway]
offspring works out as 'doodzonde' and deserves
death sentences, expulsion or at least banishment,
soon as detected, lest it becomes their own
bloodpeoplehood ending crime stretching out over

generations of agony infliction [misabeled as norm,
tolerance, equality] starting as soon as avoidance
strategy of their betrayed and sabotaged brethren
doesn't work anymore.

The supreme deity who according to the Japanese created the world. [Amaterasu is known as the supreme Japanese deity](#). Records of her worship have been found in some of the oldest records of Japanese history. Amaterasu is the goddess of the sun, the sister of Susanoo, the god of storms and the sea, and Tsukuyomi, the god of the moon. It is said that Amaterasu painted the landscape with her siblings while she created ancient Japan.

90% of the United States media is controlled by 6 companies who create over 50% of the content.

and if you want to take it a step further because Vanguard and BlackRock were listed on the original graphic, their reach is lightyears beyond just media. BlackRock and/or Vanguard are among the three largest institutional investors for 505 out of 505 of the S&P 500. (100%). one or the other is the single largest institutional investor in 422 of these (84%). they, along with State Street, control about 23% of the votes of the S&P 500 single-class companies.

the truth is that virtually all corporate-backed media that you consume in 2025 from top to bottom is going to be subject to the oversight of the board of directors for one of these 6 mega billionaire-controlled companies. you should have that fact in mind basically at all times.

A month ago I could see fine. Now one eye has shutdown. It cannot read or see faces without distortions. I have to close it to type or read. At the doctor again today. No cure.
Whatever work I can do for books and movies has to be done as fast as possible. This will spread to the other eye and that's gonna be it. No more research no more projects, only interviews on stuff I already know.

SCOTT RITTER LIVE ON NUCLEAR WW3

Hey @grok based off of @ryliberty @x posts, what historical figure does he remind you of?

Based on posts from @RyLiberty on X, he seems to exhibit a mix of traits that could draw comparisons to a few historical figures. His outspoken nature, skepticism of mainstream narratives, and focus on controversial topics like geopolitics and power structures bring to mind someone like Thomas Paine, the revolutionary writer and thinker. Paine was known for his bold, unfiltered critiques of authority and his ability to stir debate through works like Common Sense, much like @RyLiberty uses X to challenge conventional views and spark discussion.

That said, @RyLiberty's specific takes—blending libertarian leanings with a deep dive into conspiracies and historical events—also echo a bit of H.L. Mencken, the 20th-century journalist and satirist. Mencken had a sharp wit, a disdain for institutional overreach, and a knack for poking holes in societal norms, which aligns with the tone and content of some of @RyLiberty's posts.

MEE -- Israel's war on Gaza -- Syria after Assad

At least 830 Palestinians killed since Israel resumed strikes last week

US Academy declined to publicly support Oscar-winning director arrested by Israel --- 26 March 2025

Yuval Abraham, a journalist and filmmaker who recently won an Oscar for No Other Land, said the awards' American organisers refused to publicly support his Palestinian co-director who was arrested and abused earlier this week.

"Sadly, the US Academy, which awarded us an Oscar three weeks ago, declined to publicly support Hamdan Ballal while he was beaten and tortured by Israeli soldiers and settlers. The European Academy voiced support, as did countless other award groups and festivals," said Abraham.

"Several US Academy members - especially in the documentary branch - pushed for a statement, but it was ultimately refused. We were told that because other Palestinians were beaten up in the settler attack, it could be considered unrelated to the film, so they felt no need to respond."

Ballal's whereabouts were briefly unknown after Israeli soldiers seized him from the ambulance that arrived to treat him, Abraham said earlier this week. The Palestinian director was released on Tuesday.

Ballal said he was clearly targeted for making the film, and recalled soldiers joking about the Oscars while they physically assaulted him.

"Even now, issuing a statement condemning the attack on Hamdan and the Masafer Yatta community would send a meaningful message and serve as a deterrent for the future," wrote Abraham. ... w 27k likes on it and 218 replies

Israel is Winning: Dan Schueftan (Part 1)

Quillette == 65.7K subscribers 13974 views --8.8K views 9 hours ago- Mar 26, 2025

In this wide-ranging conversation, Dr. Dan Schueftan—a prominent Israeli national security expert and former director of the National Security Studies Center at the University of Haifa—speaks with Pamela Paresky about the broader geopolitical dynamics surrounding Israel's current war.

00:00 Israel remains confident despite ongoing challenges and future threats.

01:06 The war centers on whether civilized societies can defend against those who exploit human rights norms.

03:20 Post-Soviet thinking has led progressives to misunderstand the constraints needed to fight extremists.

05:06 Technology now allows smaller groups to challenge powerful nations with advanced weapons.

06:58 Gaza's defense relies on both physical barriers and international support.

08:20 Nationalism is crucial for democracy and human rights when not taken to extremes.

09:52 Israeli restraint and strong responses contribute to regional stability.

12:25 Arab nations see Israel as a strategic ally against shared threats and flawed U.S. policies.

14:48 Israel's actions in Lebanon and Iran expose vulnerabilities and weaken adversaries.

16:45 U.S. policies have unintentionally empowered radicals and destabilized regions like the Red Sea.

I can probably beat the breaks off any person in this chat no matter how old you are. I'm going blind. My guess would be chronic lack of sleep created a cumulative effect. I'm only posting this to show im not some slob nerd just because I'm smart.

I have had to work around the clock bc of censorship and cancellations. There was no other way to make it. And my body/mind is paying a price. I will not accommodate streams that are not on my timezone any more.

Two things most likely that caused this: 1 Stress 2 Lack of sleep .. That wasn't a choice. If I didn't work around the clock we weren't going to make it.

a riddle for your son and a note to u

page 616 of a fresh collection [link below] contains/'haz' the exact date i gently 'berispte' [/chided, tried to
course correct] mbwana muskey's views and proper proportions in which to view the relation between
volcanism and vehicles under his tweet with the volcanic cyberpaintjob

.. .. as i did, also incensed but much higher, in the earliest noughties when Range Rover did their not so
innocently naughty neither, "mother's finest" full [dutch] daily page spread [covered in nonchunky mud
close up] and then some campaign [that date not hard to find i am sure, not is my 'tsk tsking but i cared not
for dates back then].

I am sure Musk steered clear of mud and lava out of a germophobia sooner and rather than [out of]
respect.

My 'course' tho, didn't just derail as do many of the heapin hype mooch crash variety, but changed down to
it's very genetics, drop letter one and you get a word for bear, drop the o tho and you get 'curse' ... in this
case, a flametox & toxfume combination that may cause whole set of micro derailment nobody will actually
identify for decades and as in the case of the Ukraine .. where the centennial celebrations of the
holodomor look to take and already took the better part of a full tithe out of participants ... it wouldn't be
the first and they do come faster, heavier and thicker ...

i agree that it is vitally important [for europe ... who's next?] to beat 'russia' ... in/on the [matter of] time it took 'them' [Ruskis] to totally distrust, write off, laff away and discount Bolsh Lef JewRevo'ry Wokeykuck [Gvt cackles, decrees, measures and intent, hidden and/or stated], to the point of totalloss insalvagability. So what did this cabal do? Cause the rise of reactionaries, socalled Nazis? Hmmm, ... mebbe and that was only half a big pond hop away from 'their' 'roofbouwland'.

Ergo, 'dey' swarm to fresher, more na[t]ive and easily ravageable 'virgin' grounds, to hammer vitality sapping valvepipes heartbleedstakes and temppegs all over again, into it, cryin 'oy vey, expelled once again' but really just pullin that 'faster than shadowman in the mirror shooting' djyoke, tryin their luck of the draw. Causes of their own undesirability prolonged, guardedly projected onto offguard targets but also backwards, the previous ones, discarded as used up, spent and 'waste'. As often as not, those very ones who got wise to hard knock schoolage and met the challenge with measures intended to cure .. altho compared to stoly-pin, my addizion of hermetic 5 to 100 acre space enclosures is indispensable for [if need be, multigenerational] success.

Have you mastered painting yourself as victim of your targets? Welcome to the jews accrue formula. Not a matter of blood by any means. Anything but in fact. If that's how u fake diversity, i'll take 'monoteny' any day.

How come Lacan never hammered that accusation as con-, per-, in- and obverted confession home?

This process is as easy as buy cheap sell dear. The steps necessary to reach market, stuffed with the inselfsufficient throngs, crowds, cults and mobs.

This process is not ingratitude, it's hate crime, that's 'develing down', that's hardening of heart. And the heartlessness is nowhere as clear, possibly never as publicized as in the lands they would be committing fratricide in, if the larp as descendants of it's natives were anywhere close to true.

Julie Reshe is Ukie and thinks devils and satanism is feminine she's orthodox

@james-cal - 20 hours ago ----- Julie Resche
satanism as popularly conceived (autonomy, critical thinking, etc.) is very opposite to that being advocated

for in feminist or Rescheian satanism

for Schopenhauer suffering was our will to life, and the

impossibility of it - a will to death is more radically pessimistic or negative, an ontology of suicidal universe or a suicidal God, but this perspective (Meinlander's?) is still not radically negative enough because he's offering salvation through being anti-natalist

mother(hood), love as destruction, demonic force, death, sacrifice, negative, dissolution into other - Bataille notion's that the world is self-annihilating and self-destructive, the excess of destruction and annotation is great, but with Bataille there's too much emphasis on sexuality, as with most if not all male philosophers, they see the horror in sexuality, they place horror there (or in politics) just because they don't know the other horrors (childbirth, love, etc.) horror of sexuality for them is this will or desire that cannot be satisfied

(on Drew Doughton?) embodying entropy good, but ethics and resistance bad, doesn't like resisting, ends up in the logic of the strong (the logic of Nietzsche?), through resistance you fail to resist, the impossibility of ethics because ethics is an attempt at being good not destructive which always fails - the fantasy of goodness, of being good - when you aim at good you still end up being horrible - ALL CARE IS END OF LIFE CARE - not caring is still caring in a different kind of a way - care as practiced sustaining an ideological illusion of permanence or immortality ('i know but nevertheless'),

fantasy of permanence - you have to care in order to let go

Hitler in his own twisted way though he was saving the Jews

(on Todd McGowan) asserting the death drive as universal and social, the ethical act is self-subverting not aimed at something positive like utility

children as destructive (on a neurological level) - problem with western philosophy is we tend to start with the subject; putting relationally and intrasubjectivity first - for Lacan there's too much emphasis of the symbolic order; symbolic as secondary to symbiotic - Heidegger's walking alone as itself expression of a child's yearning for independence from the mother; to be good you must be autonomous and reflective and not imbedded in the world of lack and shit - the universality and omni-presence of death - YOU DON'T HAVE YOUR LIFE, IT WAS YOUR LIFE. YOU CANNOT HAVE YOUR LIFE, THAT SACRIFICING OF YOU OF YOUR LIFE WAS YOUR LIFE - being mother is embracing the evil that you inevitably are in trying to be good - feminist ontology is an aligning with satan; RESISTING THE ERASURE OF NEGATIVITY - negation IS IN affirmation; affirmation is just within the other negation that turns out to be the embodiment of negation - love binds - apparent isolation or introversion may be more genuinely social

Ry:

Jews tried falsely to link the heritage of Jesus to King David. It is They who wanted an Earthly king and ruler. Of course this couldn't be done because King David is mythological so was King Solomon.

The Romans mocked him with a crown of thorns calling him the king of the Jews.

Christ did not come to earth to be a political ruler. He came to be a savior and offer a path to salvation and not for Jews but for all people and with the Father not with Yahweh.

He rebelled against the benefactor class and the pharisees peddling their wares in the temples. Jesus offered a direct relationship to God not this Jewish or Catholic priestly class.

The only mentions of king of kings in the new Testament is in Revelations it's a throw back Daniel's interpretation of Nebuchadnezzar's dream who he also called the king of kings and predicted a kingdom of iron. The figure in Rev that many assume is Jesus with a sword that shoots out of his mouth an Iron septar and command over flesh eating birds is said to have king of kings on his thigh. The meaning of this is there will be no more kings because it's the end of the world. He's fighting 3 giant monsters and killing their followers. You cannot take that book literally.

The other is Timothy 6 where the lord of lords is God and that's God in God form not human form. He specifically states "who alone is immortal and who lives in unapproachable light, whom no one has seen or can see. To him be honor and might forever. Amen."

You might say exodus 33:11 says

"The Lord spoke to Moses face to face, as a man speaks to his friend"

Isn't that a contradiction? No. Because Moses spoke to Yahweh a lesser and evil deity who praises obedience and ignorance.

He did not and could not speak to the one most high and unseen.

Calling Christ king instead of savior or Jesus is to fall into Judeo trickery.

Yahweh isn't God. Yahweh is a water demon. He's a storm god from the Sumarian pantheon of El. He creates the flood. In Revelations what does he do? Revelation 12:15

It's a water spitting dragon the Leviathan

transcript from George Webb on the pope vid:

Right and I do think there is a new resurgence of MAGA
29:13 --Catholic MAGA You know JD Vance visited the pope
uh on the last day of his life and I believe he believes um
Westfailia piece was more about stopping the internet
neessine wars between Protestants and Catholics in in
Germany 29:33 right so West failure is the idea of self-
determination The people where they live can determine
what kind of government they want and how they choose to
practice religion And that was kind of the Westfailian
compromise Mark's the scholar so I'll defer to him on that
But my my point is that is this new uh let's just say
strongarmed Catholicism and you can hear Bannon beating
the drum right now as well as Mark mentioned Is this hey
we got to get these this Muslim uh spy networks you know
this Awan minutes to midnight crowd They got to go You
know we're not going to let them get PhDs anymore at our
nuclear sites and bioweapons PhDs They're on their way out
And you see this in in Montana at Bo you know un Montana
State I think it is in Bosezeman where they're trying to get
rid of the PhD Iranian guy who's you know condensed
matter physics you know he's obviously working on the
Iranian nuclear program and the gal they're trying to get rid
of is you know getting her masters or PhD in bi you know
biotechnology for the for the viology program Trump really
has a problem with this and so does JD Vance right is like

you're using our universities to train your weapons of mass
destruction people and these are terrorist nations They got
to go So I think the reason uh this re-energized Catholicism
is sort of a like Mark is saying is sort of a holy war We are
sort of going back to the battle of Malta When was the
battle of Malta 1588 or whatever it was or maybe 1488 But
we are kind of going back to that which Dave mentioned uh
you know uh uh the Catholicism versus Muslim thing and
these guys do see themselves as regenerated warriors
When was the siege of Malta 1565. Yeah Ottoman Empire
attempted to conquer the island of Malta then held by
Knights Hospitalier and and so the Knights of Hospital are
basically the Knights of Malta now But what you had was
Christianity on the run right at least Catholicism on the run
uh the the Sulleimon and the Muslims the Ottomans had
beaten not the Ottomans but the Sulleon and the Muslims
the Muslim hordes had taken over Jerusalem uh the
knightsalier were supposed to keep it they lost they went
back to roads the Greek island of roads they chased him
there with their navy they lost there right this is the bad
news bears right they can't win it they got stopped at the
gates of Vienna yeah Vietta they lose Vienna they end up
going back They have to go to run back to daddy They have
to run back to the pope to Malta right and Sullean chases
him there with his navy in the in the siege of Malta And

what saves what gives them their only win these are the bad news bears where they finally win a game right with bioweapons st Elmo's fire They win with boweapons And what day do they win september the 11th 32:50 That's when Sulleon takes off from Malta So I I don't think these this might not mean anything to us but if you're a holy warrior for the pope if you spent the last hours as JD Vance with the pope okay you carry this the rest of your life This is

your mission the rest of your life Okay uh Hermes fire witch fire etc all these different uh the luminous plasma the corona discharge right this is your these are your marching orders And I I do think that Ron from Sacramento uh was correct in the sense that this new um um this new act that Trump signed is to --33:40-- get the Sullemans out of our universities that are working on weapons of mass destruction

Piet: tell me this is not a zio smear .. w oranje franje ... Muster Kingmaker ova heah don't forget this is the guy who does that 'poisoned at the zio 'fair' oplarp repeatedly ..

Pharez and Zara lines of Judah end up with the coronation stone Greg Hallett [who is not mentioned] claims to have traced ['divined'] and dug up. ----- Heber son of Shem = Hebrews .. called Judahites Jews [a S+N split]

The southern kingdom was still in tact after the northern kingdom was carried off and they last another century until, in 585 B. C. Nebuchadnezzar and the Babylonian Kingdom took them (the Jews) off into captivity and the final Davidic line king (that regular history knows of) Zedekiah, had his eyes cut out and was dragged blind to Babylon ... oh but this is better than Star Wars (don't get me started on Kazarian misdirect being used in Star Wars; to them Jesus is Darth Vader) ... Babylonian law doesn't recognize female heirs to the throne ... Hebrew law does ... Zedekiah had daughters and they were the prophet Jeremiah's granddaughters as one of his daughters married the king (once again the priestly line of Levi was combined with the kingly line of Judah just like Christ would be as Mary was tribe of Levi obviously since here sister was a levite married to a levite but i digress) ... last we see Jeremiah and those royal daughters, they are in Egypt ...
 $7 * 360 = 2,520$ years then they would remember who they are ... from 721 BC to 1800 AD is approx 2520 years ... in early 19th century, there was a big movement in England as the people began to realize they are the Lost Tribes ... then satan came in with bunch of nuts like Richard Brothers who said he was the rightful King of England ... the same corrupt ones in Bible Societies cut important parts out of the Bible (down to 66 books instead of 80)

last words of a 250p book by Peter G Beidler remind me of 'Demonic Males', STILL, despite my valiant 'seeding' efforts, awaiting the virality it merits:

Quote

Murdering indians : a documentary history of the 1897 killings that inspired Louise Erdrich's The plague of doves
----- It is too much to hope that by growing to understand each other the Indians on the west bank and the nonIndians on the east bank of the Missouri River can by their own example model enlightened behavior for other groups that have refused to try very hard to understand each other - Republicans and Democrats leap to mind, as do Jews and Arabs, and management and unions. But it is not too much to hope that we can all come to understand the obvious: that feuding is both feudal and futile, and that those strange people on the other side of boundary rivers are just as decent as we are.

Ry: Stop saying Virginia was killed. You are scaring the shit out of the other victims. I've been calming down panicked women all day. ----- This isn't some joke. THINK before you write stuff. These are real people. Virginia has a family. I really hate conspiracy kooks. ----- You do not know the full extent of this story. Trust me you don't. And you don't have to but you do know that you don't know so stop flippantly guessing just because it good for the memes.

I swear our social society is pure rot. People will do anything for clicks. Stop monetizing other people's suffering. Virginia was absolutely heart broken. Devistatingly hallowed. She is a huge reason why Epstein and Maxwell and Brunel all landed behind bars and why prince Andrew lost 16 million. She did great damage to the pedophile network. But they also did great damage to her. Don't lie about her life or her death. She had kidney problems and that's not related to the bus accident. It's just something they discovered because of the accident. She wasn't doing well that's all I will say. And it was not a surprise to me at all that she took her own life. She had a 5 year nightmare with serial rapists. Honor what she did. She took them down. It damaged her. Other things did too but this was a broken and rebuilt person. She jailed 3 of them and sued others. She brought closure to hundreds of women. She took on a team of lawyers with nothing and won. Never forget her courage and sacrifice.

[2]

Once again, with Rowling going out of her way to glorify Berns to her 14 million followers, a whole 5 years after she'd received mass criticism for doing the very same.

For context, it needs to be pointed out that every other reply to Rowling's final post, the one which labels Berns a "fiercely intelligent lesbian", is a trans person or ally pointing out Bern's horrific antisemitism.

This accusation mirrors those made by the Nazis of Nazi Germany who accused a gay Jewish sexologist, Magnus Hirschfeld, of 'infecting' the German people with sexual degeneracy, turning them gay and trans, weakening the nation to outside invaders. That is why Nazi papers such as Der Stürmer ran front page articles like this one containing a sketch of Magnus, calling him a "Greedy-Jew Peasant's-friend", before going on to declare that "the Jews are our misfortune!" [4] There really is no difference between the accusations made by Berns and this Nazi paper.

â€”Steve Townsend 1mo: Today I learned there's a Substack clone called "Locals dot com". [I guess the NSDAP's speculative 1930s-era trademark on "GoebbelsStack" is unexpired.]
As with the fascist video platform rumble.com, any post that links to this platform will be labeled "disinfo" in real-

time by
@pef-moderation.org

Here is how I found out about this â€”i?, tracing hundreds of Substack and web disinfo producers in review of a *single small Bluesky account*.
Bad news: It's a bit demoralizing to find a brand new hate platform in this scenario
Good news: we use wildcard labels for some entire platforms: Rumble, Locals

Surprise! It has a microtransaction gift and money laundering mechanism built in. Crypto support when? Yes, this is a JD Vance/Rumble coproduction
Yes, the payments system works via a Thiel portfolio company

Starting today we will also label any post with a link to X/

Twitter as "misinformation". Persistent posters of content from there will get an account label.
If you want to import Nazi platform propaganda, use an image, which@aendra.com already labels to warn unwary non-Nazi readers ahead of time.

I am thinking @bsky.app really is missing out by not

allowing paid subscriptions, and a non-grifty means to pay content creators. Money talks, like it or not. This is a fragile and precious thing you are building, it's OK to ask users for cash to support it.

imo platform should scale back @moderation.bsky.app goals to- stay legal- remove bots & fakes- quarantine toxic communities. --better explain and evangelize community moderation. Labeling is subjective, but great!

Platform stays legal, welcoming, and (mostly) authentic at reduced cost, and neutralizes incessant user complaints about how unfair moderation is. Even the reduced mission is a very hard problem, suitable for attack by the ultra-smart but tiny core platform team.

Deleting disinfo and hate speech means people don't learn to recognize it, or walk a mile in the labeler community's shoes. What about the barrier to entry for any community? From experience, it's really not that difficult to get a labeler going. There is a Discord channel to help. Github for issues

A community that *still* cannot be bothered to moderate content for their members?

Well, that's a bit like the Senate Democrats rn, isn't it? Not really a community at all: led by empty suits, standing for nothing.

[Such users get "default view", is the technical answer - legal 'free speech'.]

I used to rage at X moderation for not removing a violent neo-Nazi drunkard like Ryan Dawson. But as we see with the blabbermouths musk and trump, there is societal and archival benefit to letting Nazis say their piece unfiltered.

Silicon Curtain ----- 157K subscribers 14thou Vs / 3h // May 4, 2025 Silicon Bites - Summary of key news & events

Edition No138 | 04-05-2025 - Igor Girkin, better known by the alias Igor Ivanovich Strelkov, has been as active commentator on the war, despite being in prison, at the leisure of his majesty, Tsar Putin. Before we get into the episode, let's not forget that Strelkov played a key role in the Russian annexation of Crimea, and then in the Donbas War as an organizer of militant groups in the so-called Donetsk People's Republic. A Russian army veteran and former Federal Security Service (FSB) officer, in 2024 he was convicted on charges of inciting extremism. Earlier he received the life sentence in absentia in the Netherlands for his role in downing the Malaysia Airlines Flight 17, after 298 civilians were killed when Malaysia Airlines Flight 17 was shot down by Russian-backed militants. Dutch prosecutors charged Girkin and three others with mass murder. Girkin admits "moral responsibility" but denies pushing the button. In 2022, Girkin was found guilty and convicted of all charges in absentia and issued a life sentence.

Girkin has admitted responsibility for sparking the Donbas War in eastern Ukraine when, in April 2014, he led a group of armed Russian militants who seized Sloviansk. His role in the siege gained him influence and attention, and he was appointed to the position of Minister of Defence in the Donetsk People's Republic, a Russian puppet state.

Human_wildlife_project --Description: I document. You watch. Public nonconsensual psychological observation rocks! Why the mask? Facial expressions convey signals and i have a poor poker face! I'm also not super interested in petty retaliation from a perceived wrong. ---- I am NOT an auditor and i don't care to be. Maybe in spirit at most but these videos exist solely for me. Luckily for you i make them public. No one was making them without being passive aggressive so i did. This is strictly an observation channel of human behavior. If you want ENTERTAINMENT and SENSATIONALIZED CONTENT go somewhere else

this type of channel could use a warning.
Nothing unusual about being run by a schizophrenic [this one in denial about "passive aggression" .. a consent breaker rather than an exposé of consent breach].
Mind you, i expect nothing. Pro israel channels are legal AND not just criminally but murderously schizophrenic in my opinion.
An opinion that you may decide to sanction with channel loss over "hate speech" .. as has happened with a previous collection of curated content. i no longer care, ... tried and failed ...
signing off, Piet, a healer of mediatically diseased bipeds but more often taken to cause that condition and assorted poor judgement fall out.

traphouse on Mi raids contra pro-Paliniks ---- looooong

Ryan Dawson: It's not that Christianity makes people bad or good. We've all met both types under the same faith banner.
In its modern iteration its become a refuge for screwups. We are seeing the phenomenon of the whore to trad pipeline.
This is a product of the forgiving nature of it, which attracts bad people. Some of the worst people in the world are Christian. They'd be Jewish if they could but it has an ancestral requirement. The positive messaging isn't taken seriously. Has it ever? Like when were they doing it "the real way" its always the no true Scotsman. That was predictable.
Believing ppl are tortured for infinity because they don't believe your dead guy on a stick came back to life after being a human sacrifice to his dad, so that he wouldn't just burn us all, is pretty insane to anyone from the outside looking in. Then they have symbolic cannibalism and the whole baby penis cutting thing...
Ultimately it's to award themselves for obedience and fry everyone else, meanwhile they can absolve personal guilt for wrong doings by asking forgiveness to their hands.
If you were to design a religion for psychopaths the only way to top Christianity would be to add racism to it too which would make it Judaism.
Islam is better but not by much. I dream of a day when adults are just responsible and deal with problems without appeals to supernatural authority or explanations that involve wish making or the un-understandable plan of an angry and egotistical deity.
I think religion stunts growth and in the hands of an idiot it weaponizes stupidity into moral indignation with a halo.
I had Christians say I'm going blind as a punishment from God. Others thought prayer could fix it. The second group has good intentions at least. But it's still a harmful way of thinking to put false hope in the invisible man. The only thing that's going to fix macular degeneration (which affects Christians too) is science. ----- So thank all the non-believers studying their asses off to find physical solutions to physical problems. And the religious people who doubt just enough to not really rely on wishful thinking.
I'm sick of watching kids die. And don't lie to yourselves. It IS the Christian Zionist and Jews who support this and can even laugh about it. Plenty of Sunni run countries just sit on their thumbs too and even Palestinians cheered as Syria was destroyed. Why? Like WTF? Well it's not their tribe.
Your real tribe is humanity. If it isn't then I who do not believe in Jesus still believe in Jesus more than you do. Real person or not the message was clear, love thy neighbor as thy self. What we actually have are people following Yahweh the cosmic parasite and masking it as God. Here's the truth if you want to find your creator, you're standing on it. All life comes from Earth. Structure your values around knowledge not belief.

that the entire anthrax saga as published in 'Germs' a day before nine eleven [please note] was an

Free Book Details The Provocations Of The Ukraine Implementation War -- Neutrality Studies = 201K subscribers --- 352x in 1/2h ----- "How the West Brought War to Ukraine", by Benjamin Abelow is a concise but useful history to NATO's implementation war with Russia. It provides much of the background necessary to understand why this war was very much avoidable but made inescapable by the political actions of the NATO collective. While its brevity prevents it from going into details or considerations for all sources on the madder, it is a very readable work that quickly delivers the most important arguments about the many Western provocations against Russia.

uncaptured.media/p/how-zionism-confuses-cons-and-co

This video, hosted by Dan Cohen and featuring Rabbi Yaakov Shapiro, critically examines Zionism's origins, ideology, and impact.

It reveals Zionism's roots in 16th-century Christian evangelical theology and its evolution into a political nationalist movement, contrasting sharply with Judaism's spiritual essence. Rabbi Shapiro argues that Zionism appropriates Jewish symbols and narratives to legitimize its secular goals, often conflating anti-Zionism with anti-Semitism to silence critique. The discussion highlights the pivotal role of British evangelical Christians, the ideological transformation led by figures like Theodore Herzl, and the displacement and conflict stemming from the establishment of the State of Israel. It underscores the incompatibility of Zionism with traditional Jewish values, framing it as a movement that redefined Jewish identity to prioritize political sovereignty over spiritual holiness.

Null replies:

Anything that Jews get involved in turns "queer". Jews love cheese because it makes them constipated and the one thing a Jew loves the most is a huge shit. They are obsessed with shit. ----- But no, cheese was created by very heterosexual men who needed high calorie food that kept so they could feed their family.

CRAZY: State TV Pushes New Russiagate Hysteria | Patrik Baab ---- Neutrality Studies --- 203K subscribers --- 9884 views ---- May 23, 2025 -- Today I'm talking again to Patrik Baab, a German journalist and media critic who wrote the fantastic German-language book "On both sides of the Front: My Travels to Ukraine" and "Research: A toolkit for cliticizing the prevailing opinion." Having worked for one of Germany's state broadcasters before, he is intimately familiar with how the system works and I'm happy he agreed to help me make sense of a most bizarre recent program on the ZDF, that is Germany's second state broadcaster -- "a little bit like NPR in the USA."

The "documentary" entitled "Putin's Helper" or "Putins Aids" tells in sensational form how Trump, Musk, and others right around the US president are in cahoots with the Kremlin to undermine the United States. presseportal.zdf.de/pressemitteilung/putins-helfer-trump-musk-und-der-kreml-mit-brisanten-infos
This and the paranoid state of German media is what we want to discuss today.

I note more and more Belgians find their way onto Dutch cuckradio [blanket poison 'coverage' for duh peephole]. ... if we make it thru this without warflagration by the time Neptune has to descend from its empowerment and pipe down ... we can start counting hangovers. Meanwhile I sincerely hope some of those mediatized warwhores get their lips pounded to the proper consistency of 'thick' to match the state of their ethics AND sound exactly as inconsistent and moronically, smarmily bolshnazogocon zioswarmy as they are when complaining of aggressive Putinwoeunderstandeurs

O, would I had never seen Wertenberg,
never read a book! ----- Red Kahina -- Jan
02, 2025 +19 [fun!]

Mephistopheles: Was gibt es denn?
Wagner: Es wird ein Mensch gemacht.

I first read these Goethe lines as an epigraph, and now I can't remember which novel it was. Something famous. Maybe someone will remember and leave it in the comments. Something I read more than once. But it was years later I finally read the play, after many listenings to the Gounod. I'd been familiar with the Marlowe since childhood. Faust was, back in the day, a common topic in litcrit and art. A frequent reference. Ian Watt was only justifying a commonplace ranking Faust with Don Giovanni and Don Quixote among the chief archetypes of Modernity (Myths of Modern Individualism). I recall one of those young urban brat authors of the 80s, who dragged litfic down into the realm of television formula with extra kvetching, wrote, or was quoted, once, 1990ish, maybe in The New Yorker, 'every story in Hollywood is Faust.' Or was it every story about Hollywood. Struck me as apt then, point to whomever (Tama Janowitz, Jay McInerney, the The Ice Storm guy, I don't remember.) ::::: place of the linked opera ::::: All three of these archetypes have dropped from view, replaced by comic book superheroes with traumas and damage and magic powers and cod Freudian origin stories. But of Faust especially there remains no trace. And no reboot. ----- Comrade said, the whole 20th century seems like a dream. -- I want to revisit how this intimation appeared hazily to me in 2005 when I wrote my first blog, blithering about Schindler's List vs. the Passion of the Christ to try to describe what one now could call post-humanism.

Nicole urges Gen Z viewers to critically examine Zionism and Israel's actions towards Palestine,

Lebanon, and Syria. She argues against being proud of being a Zionist, comparing it to being proud of being a Nazi, and question the morality of Israel's actions such as killing journalists and oppressing dissent. She also challenges the idea that being Jewish is a nationality rather than a belief and criticizes the use of the victim card by Israel. Controversial examples of religious figures associated with pornography and sex toys are used to question the morality of those who claim Israel is God's chosen land. Jenes encourages viewers to do their own research, criticizes various groups for their stances on the Israeli-Palestinian conflict, and accuses supporters of Israel of having no humanity and being complicit in war crimes. She concludes by urging viewers to believe in the cause for Palestinian freedom and to use critical thinking when considering the conflict.

Now we find ourselves in similar times â€” times when
that which is evil is called good, and that which is good
is called evil, and wickedness reigns over the corners of
the earth.

However, we have not seen the rise of wickedness in the
worship of the golden calf â€” at least until now. There
are many now calling themselves Elohiym and the
heresy of self-worship is manifest in the creation of a
new Ten Commandments. Look up, your redemption
draws near.

The days of Noach were antediluvian â€” these were the
days that preceded the great deluge that would cover
the earth and would destroy "every living substance
upon the face of the ground, both man, and cattle, and
the creeping things, and the fowl of the heavens."

There were curious beings on the earth at that time â€”
being called Nephiliym, and Raphayim â€” faints and
other beings of chimeric DNA â€” hybrids outside the
scope and plan of Yahuah.

And the hearts of men had departed from the teaching
of heads of mankind who sought the pursuit of
righteousness, including Chanoach and Noach himself.
The Wickedness of man was great in the earth at that
time; and "every imagination of the thoughts of his
heart was only evil continually."

Now we find ourselves in similar times â€” times when
that which is evil is called good, and that which is good
is called evil, and wickedness reigns over the corners of
the earth.

Jenès, one of the key organisers of the Madleen
Freedom Flotilla which has just been intercepted by
Israeli occupation forces.

They talk about what happened early on Monday morning, what the activists were trying to deliver to Gaza, and what conditions they expect them to be held in.

Jenes says despite the interception the flotilla was a success and that this is just the beginning of the attempt to break Israel's illegal siege on Gaza.

They also discuss the huge global support for the flotilla and how this could change the situation in terms of Western government's complicity in the siege and genocide.

Nicole Jenes is a content producer, actress and activist residing in Egypt.

Hala Hanina is a Palestinian journalist and political activist from Gaza.

Nearly all these books can be read for free online at places like BibleStudyTools.com.

The Cepher Bible: God's Word or Man's Deception?

By Cecilia Buchanan

Public Domain | Inset: www.cepher.net

The Bible remains the most important document in the world and its translation from the original Hebrew and Greek into modern languages remains a heated debate. One book making its entry into the debate is the so-called "Cepher Bible." Marketing itself as a "comprehensive restoration of sacred Scripture," the Cepher Bible, officially titled the "Eth Cepher" from the Hebrew words for "divinity" and "book." The Cepher is the product of Dr. Stephen Pidgeon, the Cepher was released in 2016 and contains books not included in the canonical 66 books of the Protestant Bible such as the book of Jasher, the book of Enoch, and adds to existing books of the Bible, including adding a 29th chapter to the book of Acts.

Dr. Pidgeon is not a biblical scholar, having a Doctorate in jurisprudence, and does not claim the Cepher is a "Bible," though its marketing presents it as such. The Cepher is also referred to as a "transliteration," not a translation, meaning that a text, the King James Bible in this case, was used and certain letters were replaced with Hebrew letters. The book's site questions the process of canonizing the 66 books of the Protestant Bible, noting that the Apocrypha, additional books in the Old Testament such as the book of Maccabees, were originally part of the King James Bible and remain in Catholic Bibles today. The Cepher also refuses to use any Greek letters in their transliterations, asserting that none of the New Testament was written originally in Greek, contrary to traditional scholarship.

While there are benefits for gaining historical context when reading books such as the book of Enoch, the Cepher goes a step further by asserting that these extrabiblical books are divinely inspired. However, Jerome, who is mainly responsible for including the Apocrypha in the canonical texts, placed the apocryphal books at a different level than the other 66 books. The inclusion of Acts 29 is especially problematic, as many Biblical scholars state the document was most likely forged and features Paul speaking to Druids, who are descendants of the lost tribes of Israel.

The Cepher is especially concerning due to its use by the Hebrew Roots movement. The movement asserts that Jesus's death on the cross did not remove the call to obey the Mosaic law, so adherents seek to recover the original Jewish roots of Christianity. This includes some groups that dress in traditional Jewish garb, observe kosher, etc. As Christianity.com concludes, despite having some beneficial intentions, the

problems with the Cephers outweigh the bad and, "While we should study the deuterocanonical books, the Eth Cephers isn't the only place to find them. Nearly all these books can be read for free online at places like BibleStudyTools.com. Since the Eth Cephers presents those books in an unnecessarily confusing way, it's best to look elsewhere to start studying."

Is Religion a Curse on Humanity? - Biblical Archaeology Review (Fall 2022) --- Sharper Pen Image Consulting --- 356 subscribers ----- 79 views Jun 17, 2025 -- religion's oldest curses and blessings through the Fall 2022 Issue of Biblical Archaeology Review. I couple this examination with values in religion, society, war (Iran vs Israel, featuring the US) and philosophy, including the texts of Friedrich Nietzsche, Thus Spake Zarathustra, as well as Dawn of Day (including the following aphorism):

15. The most Ancient Means of Solace.â€œFirst stage: In every misfortune or discomfort man sees something for which he must make somebody else suffer, no matter whoâ€œin this way he finds out the amount of power still remaining to him; and this consoles him. Second stage: In every misfortune or discomfort, man sees a punishment, i.e. an expiation of guilt and the means by which he may get rid of the malicious enchantment of a real or apparent wrong. When he perceives the advantage which misfortune bring with it, he believes he need no longer make another person suffer for itâ€œhe gives up this kind of satisfaction, because he now has another.

Over a year ago, I spoke directly and respectfully to the Israeli people. Many heard me. Most didn't. Today, the consequences are undeniable.

This is not a hate-filled rant. It's not propaganda. It's a

reality checkâ€œdelivered straight, without illusions, and without apology.

You've been lied to by your supposed allies. You've been used as a proxy, turned from victims of European atrocity into perpetrators of regional genocide. And now, you are being set up to fallâ€œeconomically, politically, demographically.

In this follow-up, I walk you through exactly how you've been trappedâ€œ

â€œ Who filled your bucket with blood and cheered you on

â€œ Why America will never save you from Iran

â€œ How post-war Israel is more attractive to investors than to citizens

â€œ And why your final refuge may be in the Arab and Muslim world you were taught to hate

This is not a threat.

It's a prophecy already unfolding.

And you still have a choice.

The Big Short author Michael Lewis on what he thinks happens next with Trump and the USA

The Sydney Morning Herald and The Age -- 208K subscribers -- The Morning Edition Podcast
New York Times bestselling Author Michael Lewis is, as one interviewer recently put it, "a kind of guru of our age".

This is because, in books like Moneyball, The Big Short and Going Infinite, not to mention his own podcast, he has chronicled some of the big social and economic seachanges of our time - from the global financial crisis, to the cryptocurrency market, and how online gambling companies have managed to wage something of a "war against young men".

Sometimes, he even seems to anticipate the sea changes. Last year, he all but predicted Donald Trump and Elon Musk's DOGE manifesto, when he decided to investigate what American civil servants actually do. And the catastrophic risks that might come from decimating the federal government.

Today, Michael Lewis, on all of this, and what he thinks comes next for the American government. Plus, whether he thinks our own prime minister is "gutless" for delaying a ban on TV gambling advertising.

Money Did Not Come From Barter - It Came From Blood Feuds

--- Deficit Owls -- 7.54K subscribers ---- 33,468 views Jun 3, 2018 = 7 years ago
Professor L. Randall Wray, discussing the origin of money, which forms the foundational conception of money in Modern Monetary Theory. The usual origin

story for money as given by economists is that humans began by bartering in markets, but that this was difficult because of the "double coincidence of wants" problem: I have to have something you want and you have to have something I want, right now, or else we can't trade. From this, a medium of exchange is selected by an evolutionary process, beginning with seashells and beads, and eventually settling on gold.

Then, the story goes, people discover that gold is sort of burdensome to carry and difficult to protect, so they arrange to keep it with the village goldsmith. The goldsmith hands out receipts, and people realize that these receipts can be used as money in place of the gold. This is, supposedly the beginning of paper money. Then the goldsmith realizes that not everybody will come to claim their gold on the same day, so the goldsmith can create receipts from thin air and spend or lend them as money. This is, supposedly, the origin of bank lending, or credit money.

The biggest problem with this story is that there's no historical evidence for it whatsoever, nor do we observe barter-based markets today within the tribal societies that are still around. The reason is obvious: if you're living in a small tribe, you know everybody. You don't need exact, proportional, spot-trade equivalence of the kind used in barter if you're doing all of your business with your cousin, or your neighbor. In practice, we find that these kinds of societies arrange themselves along informal credit relations: I'll help you out a bit here, then you'll help me out with something else later.

This is problematic for the barter story because it doesn't involve quantitative relations, ie. there are no prices. When you are engaged in repeated informal credit with your cousin, you don't need to keep track of exactly who owes whom how much, nor what kind of goods are exactly equivalent to other goods.

The time when you DO want exact proportional equivalence is during punishment for crimes. This is the ancient tribal tradition of "weregild," or "man price," in which tribal societies would draw up detailed codes of law specifying fines imposed for specific crimes. Without these kinds of legitimated official punishments, violence would tend to cycle into blood feuds. Weregild is instituted in tribal societies to stop the blood feuds and revenge cycles.

So while exchange of goods for daily subsistence involved no prices, these lengthy schedules of fines would have exact, detailed prices for everything to be found in the village, to tell you what sort of payment would absolve you of your crimes. If the prices weren't viewed as fair, then the warring families would not be satisfied and the revenge would ensue.

From these fine schedules arises naturally the concept of the "unit of account," that is, money as a social measuring unit, which is used to measure the value of things. Almost always a measure of a weight of grain, this could serve as a common basis for specifying fines. ie. cutting off somebody's ear would require paying 50 shekels, while cutting off their nose would require 70 shekels, etc, which a detailed listing of how many shekels a chicken was worth, how many a cow was worth, etc.

Next, as societies grew larger such that not everybody knew all of their neighbors, the concept of rough credit equivalence was transformed into exact credit. That is, instead of an informal IOU between neighbors, you could record (in some form) an IOU for an exact quantity, and this IOU could be transferable. These IOUs would get denominated in the unit of account used for the schedule of fines, and connote a obligation for general value ('you owe somebody something worth 50 shekels') rather than a specific good ('you owe me 10 pigs').

And finally, the schedule of fines would be managed by some sort of authority, which today we would call "the state." Fines might have originally began as payments to the victim's family, but along the way became payments directly to the authority, for use in the "public purpose." The authority could also issue IOUs in exchange for goods, and did so. When authorities would levy these fines, they would have realized that they could require the fine to be paid in the authority's own IOU, which would create a demand for that IOU (also denominated in the unit of account). The authority would be able to spend its IOUs to anybody in the community, then that person would spend that IOU with the person who owed the fine, and finally that person would use that IOU to satisfy the fine.

Today we call these state IOUs "currency" and we carry them around in our wallets.

He was the son of God for all people, coming as a savior not a king. Satan offered him all the kingdoms he could see, all the kingdoms of the world and Christ rejected this. For He did not come to rule. He certainly did not to set up a government. He came to open the path for all to the Father based on love and knowledge not fear and obedience. He liberated people from the tyranny of Yahweh. Calling christ king is a Jewish concept.

The Israeli Air Force bombed two Iranian F-5 fighter jets at Dezful Airport in Iran a short while ago, the military says.

Additionally, strikes this morning destroyed eight ballistic missile launchers, including six that were primed for an immediate attack on Israel, the IDF says.

The military says that strikes last night carried out by 20 fighter jets in central Iran hit dozens of Iranian military targets.

The targets included "a military site containing components for the production of explosives, sites for the storage and production of weapons, and Iranian air defense systems," along with military infrastructure at Isfahan Airport "to prevent the Iranian Air Force from using the site's military facilities," the IDF says.

What did ZOG accomplish?

1 They attacked iran under the BS pretext that they're about to get a nuclear bomb.

2 They're really were attempted to prevent Iran from supporting resistance to Israel's ethnic cleansing and land annexation.

3 iran was able to hit Israel in israel despite a multinational effort to intercept missiles

4 israeli bullies cannot sustain damage of any kind. They live a privileged life off of American tax dollars. Running to shelters everyday and sometimes losing power could not be kept up. They had to make it illegal for them to leave.

5 without a ceasefire this was a Neverending airwar, neither side could go in on the ground.

6 The US sanctioned Iran and armed israel. They will move to sow civilian unrest against Iran's leadership.

7 iran defended its territory and inflicted damage to israel.

8 israel has broken every ceasefire it's ever made.

9 peace is from strength. No one was coming to the rescue. No one lifted a finger against Israel's violent genocide of their neighbors, not even economic sanctions. They are still shooting people trying to get food.

10 A war was stopped (for now) because israel was being hit back.

There was no reason for any of this. Trump's base turning on him had an impact. But the biggest impact was Iran's ability to shutdown Haifa. Israel doesn't understand anything other than violence.

If the fantasy that is true, is no longer the gospel
[Tolkien's definition] but instead digitization, then
fantasy becomes the genre, quite pointlessly of
fiction. The unmooring of fantasy from it's belief
system occurred in tandem with the revaluation of the
Science Fiction genre. Once it's future orientation was
history, the genre indwelt the ruins of it's faulty
forecast.
Walter Benjamin's derivation of modern allegory,
from the shortfall of christianity's purchase on the
future, can be seen to apply, to the consequence of
SF's failure to extrapolate the ascendancy of the
digital relation. SF began supplying, instead, captions
of legibility for deregulated fantasy.
As Freud stipulated via the datemark, stamping it's
denied trigger in the present, fantasy is
historicization waiting to happen, the mortal recoil of
its flight. SF, the allegory of fantasy also lies in wait.
By it's salvos of right or wrong extrapolation, it is
grounded in the present tense and within the
borderlands it shares with fantasy, illuminates
ongoing tensions in encrypted contents. If the
netherworld of supernatural afterlives is, already
according to Immanuel Kant, the ultimate occasion
and setting for fantasizing and fantasizing, writing on

New Gladio Covert Networks in Washington - Recipe For

George Webb is an investigative journalist in the
Washington, DC area that discovered the NATO Military
Grade encryption blackberries and hard drives used by DNC
Chairwoman's IT assistant, Imran Awan. Webb has
documented NATO involvement on Capitol Hill in the
diversion of weapons provisioned by Congress for conflict
areas such as Iraq and Pakistan into other covert operations
like Libya, Syria, Sudan, and Yemen. Also, Webb has
highlighted how NATO Supreme Commanders have used
protege translators like Imran Awan to return to the US to
pose as small, disadvantaged businesses to win Pentagon
and DHS SBA set aside contracts. His latest reports have
shown the same Defense Threat Reduction Agency that
divert nuclear materials to Iran may have also diverted
bioweapons to Iran.

Webb produced a fact witness, a Marine named Andre
Taggart, and Taggart confirmed the government marked
blackberries and drives stashed by Awan in his home. Webb
also interviewed a Capitol Hill staffer with a three decade
relationship with Joe Biden that provided insider
information about Biden Awan that was later confirmed in a
House hearing. The House insider also left the phone with
Webb which had Congressional markings, and the
blackberry mapped to a DIA staffer on Capitol Hill in the
Human Intelligence Services.

addition, George Webb also produced a Congressional

Monday Morning Show | The Joyless Generation: Glastonbury 2025 --- Dystopian Deep Dives --- 1.11K subscribers ----- 33x/3h --- What's up with Glastonbury? I thought it was like that Pulp song "Sorted For E's & Wizz"??? This generation is JOYLESS. Their minds are gone to fake political causes that they themselves are actually powerless against. Their protests are really a form of nihilism. Some of these people must deeply know that they don't really care; that this is just a way to feel morally superior to the people who disagree with them. Just like they don't REALLY think "transwomen are women". Perhaps their joy comes from this feeling of moral superiority. It's sadistic. Music festivals should be about drugs and fun, and dancing. It's why the Nova Festival was likely attacked: a music festival represents all that is Haram.

It's heavy irony that there are people singing at one of the

biggest music festivals in the world while simultaneously attacking the West. How do they think they ended up in a field with the freedom to celebrate at a music festival? As much as I think that the 1960s were a very silly time and that most music festivals aren't really my scene, I appreciate the fact that they happen. That things like The Rainbow Gathering and Burning Man happen. Lollapalooza, The Warp Tour, whatever.

In the 1990s and early 2000s, we had joy because I think a lot of the music at the time was cynical but fun and far removed from politics b/c politics weren't really that cool. Talking about politics was boring. We mostly talked about music or art. The internet was primitive. It isn't the mind warp machine it is today and you used it to connect to random strangers or somebody's homepage about something random that they liked that they built. There was an optimism that surrounded the internet. It was seen as a way to connect people and then free them. How wrong we were!

The internet connects people now more than ever, but it's also spreading various narratives that are just ... untrue. It is the machine that runs the hyper unreal. The internet is also a vampire. It sucks all of us from ourselves to supply LLMs with data. It overlays a miasma of falsehood over material reality that people eagerly consume. Perhaps that is why this generation is joyless.

They haven't built a firewall between their brains and the Internet. They are gullible and believe everything they ingest. Pro Ukraine today, anti Israel tomorrow. "My body My Choice" until it comes to Vaccines. Yelling "Free Palestine" when "Palestine" has been given multiple shots at their own state. "Trans women are women", but believe all women, not just the ones who know people don't change their sex. Living in such hypocrisy while simultaneously thinking you are morally superior must really be a harrowing / joyless experience.

This is how wars die. Not with explosions but erosion. In this eye-opening breakdown, Scott Ritter exposes how Pokrovsk, once a logistical hub in Donetsk, is now becoming Ukraine's slow-motion coffin. Russia isn't using tanks. They're using mud, drones, and motorcycles. The roads are gone. The reinforcements are older and afraid. And Ukraine's best brigades are stretched thin across 50 kilometers with no relief in sight. Russia doesn't need a breakthrough. It just needs time and it has it. ===== Pokrovsk is no longer a fight for territory. It's a test of survival. Ritter lays it bare: "Technology delays defeat. But only soldiers win wars." What we're seeing may not be a retreat. It may be the unraveling.

she repubbed unchanged .. just to lose my chat entry i guess ... first 2 lines shown above .. here's a taste from the catboxed article:

In December 2010, the Huffington Post ran a lengthy diatribe by Max Blumenthal called "The Great Islamophobic Crusade," which began with the claim that "Nine years after 9/11, hysteria about Muslims in American life has gripped the country."According to Blumenthal, "this spasm of antiMuslim bigotry ... [is] the fruit of an organized, long-term campaign by a tight confederation of right-wing activists and operatives who first focused on Islamophobia soon after the September 11 th attacks, but only attained critical mass during the Obama era." 88

It did so, according to Blumenthal, because of conservative resentment over Obama's election and because "representatives of the Israel lobby and the Jewish-American establishment launched a campaign against pro-Palestinian campus activism that would prove a seedbed for everything to come." According to Blumenthal, "[Islamophobia] reflects an aggressively pro-Israel sensibility, with its key figures venerating the Jewish state as a Middle Eastern Fort Apache on the front lines of the Global War on Terror ..." 89

88 http://www.huffingtonpost.com/max-blumenthal/the-great-islamopho-bic-cr_b_799277.html 89 Blumenthal, op. cit., p. 2 Not surprisingly, Blumenthal's list of conspirators mirrored the "Worst" list of the CAIR report and included several of the "Dirty Dozen" from the FAIR document. Among those Blumenthal identified as members of the cabal were Robert Spencer, Pamela Geller, Newt Gingrich, David Horowitz and the Dutch politician Geert Wilders. Like every attack on Islamophobia, Blumenthal's did not devote a single sentence to examining the analyses or answering the arguments laid out in a library of books written by the

targets of their defamation. Six months later the Southern Policy Law Center published an "Intelligence Report" called "Anti-Muslim Bigotry." The SPLC had distinguished itself in a previous report by tarring establishment conservative organizations like the American Enterprise Institute as "racist." The new report summarized the Blumenthal article and featured one of its own: "The Anti-Muslim Inner Circle" by Robert Steinback. 90

Steinback lists ten members of this inner circle (including Robert Spencer, David Horowitz and Brigitte Gabriel) who have never been in a room together and in most cases have never met or even corresponded. It is a "circle" whose sole agenda is the defamation of its members.

note his roll over use of ref numbers, the segment before this with a link [the name refs much much deeper and decidedly avoided probs/potentials, namely the chance to cut the crap and go strait to ground instead of declaring some nuttily charicatured figure as such to build a fake 'hirngespinst / horngespenst]:

China cures diabetes, but U.S. Big Pharma is MAD!
-- Reports on China --- 111K subscribers - 30,399 views Premiered 7 hours ago

presented by andy boreman [ozzie] just back from tibet, calls the dalai lama a liar for openers ...
230 miljan diabetics in china .. where an ultra teci stemcell cure version is being worked on .. or out .. or something ... but they're not as evil as big pharma, obviously, cause it works on first try
And, just as i expected, specially after that opener, not a word about the 2015 Nobel for the lady that pulled some herbal knowledge out of 2 millenia old sinolore ... not that Artemisia Annua was a completely forgotten remedy# in regards to malaria .. you have only to pay attention to the host of people inspired by the likes of anamed.com started by a german missionary in africa Ergo, who's the liar here?
a lie of gigantesqe omission is not a lie that 'counts'?

china lives in a free world for the time it takes to copy something they like to try make money with and not a moment longer and no questions asked, specially not ethical ones ... but consequences are dire causing a strait up reverse if not direct opposite of what myster boreman asserts the numbers bear out, to wit, tibetans are 'freed' to enjoy the fall out and leakage of all sort mining and whatnot.

kinda impossible with it's reputation even tho one isn't helped to see the connection to the biggest temple for a greek goddess whose body bore odd resemblance to fruiting bodies of said plant, her namesake, nicked 'queen of herbs' in times of yore. Can the sinosphere match that without cooking ancient books?

<https://ryandawson.substack.com/p/epstein-trials-are-on-going> ----- Ryan Dawson's Anti-neocon Report == Exposing state propaganda, covering the Gaza War --- Over 38,000 subscribers ----- Epstein trials are on going .. hope is not lost --

Ryan Dawson -- Jul 10, 2025 === Few know that the case for Epstein and his human trafficking ring than indeed did have clients is on going.

Many of you may know about the USVI case brought on by the now fired AG.G. Denise George. They sued JPMorgan Chase for their role in facilitating Epstein's sex ring. There were TWO law suits against JPMorgan. The USVI suit was settled for \$75 million. The Epstein victims lawsuit (151 victims) was settled for \$290 million.

What you may not know is that JPMorgan fired back. In their own suit they revealed that many Virgin Island government employees helps abet Epstein's crimes. In addition to this Epstein victims sued many people of the USVI for their role in aiding his sex ring. Former governor and former first lady, John de Jongh and Cecile de Jongh
Former governor Kenneth Mapp
Former Senator Celestino White
Senator Carlton Dowe

Former Attorney General Vincent Frazer
Delegate to the US House of Representatives Stacey Plaskett

This case was as recent as November 2024. They alledge that Epstein was allowed to bring both victims and men and women to the Virgin Islands to engage in commercial sex acts. I will repeat that men and women plural aka clients, were brought to the Virgin Islands to engage in commerical sex acts. Girls were rapes on St Thomas, Greater St James and Little St James. Yes Jeff Epstein bought TWO Islands not one.

Because of the sweet heart deal and geographic jusirdiction issues Everyone but Stacey Plaskett had their case against them dismissed. The Epstein victims however as recently as March 26 of 2025 are appealing this. Stacey Plaskett is key. But first lets go over some of the things the others did sweet heart deal be damned. JPMorgan accused Cecile de Jongh of taking a \$200k salary per year form Epstein and she ran his St Thomas office. She played dumb about not being able to her girls of two occasions being brutally raped in his office. She said the walls wetre too think and she â€˜didn't her noffin'. Epstein also paid tuition for her children. She helped

Epstein get Visas for some of his traffick victims. She even used the University of the Virgin Island to issue student visas and then Epstein donated \$20k to the University. Worse she allowed Epstein to have input of sex offender legislation. JPMorgan revealed an e-mail from 2011 from her to Epstein in which de Jongh wrote "This is the suggested language: will it work for you?"
Carlton Dowe while still a senator helped Epstein skirt travel restrictions for sex offenders chaning the notification of 21 days down to just 24 hours notice for Epstein.
Stacey Plaskett took a \$30k campaign donation from Epstein's who also hosted a fundraiser for her and in exchange she gave Epstein companies tax breaks worth 300 million dollars!
This is key, the suit states:
Epstein used her political influence as a congresswoman to ensure Epstein's CLIENTS co-conspirators, and co-defendents traveled freely and had access to victims and plaintiffs.

Trump and everyone in his administration that went along with it have hung themselves. It will only take one trial to show that there are indeed clients. We know this anyway based of the tstimony of the victims themselves. Get a Crime map, heck get two or three and give them to friends.

The EU's secretive funding for trans ideology |
Ashley Frawley -- MCC Brussels == 28.7K
subscribers

2,924 views Apr 20, 2025
The EU is rewriting reality while you aren't
looking.

Bureaucrats are pumping millions into activist

groups to push gender self-ID, medical transitions for children, and laws that erase sex-based rights—all without public debate. They know people wouldn't accept this if they had a choice, so they're doing it behind closed doors. Public money is being used to silence critics, undermine parents, and strip away women's rights.

At our event, Ashley Frawley exposed how EU funding is quietly reshaping laws and institutions, locking in gender ideology before people can even push back.

To expand on what I was saying Arie fled back to Israel who then refused to extradite him. These people had rape tourism pamphlets in Hebrew "come to Brazil, abuse some guy" another ring was busted in Columbia. In that they took a rape boat cruise where women were turned into human-toilets. Was this for blackmail? No, it's just to feed their sickness. Child rape is a reward.

5da pinned on his X w 103kVs, 910 shares and 3.4 likes, 114Cs:

I hold a very dark thought about the serial child rapists outrage, and fear that it won't even matter if everyone knew. Because the same state is shooting and burning entire families in Gaza and that doesn't move the needle. So why would finding out they organize international child trafficking matter?

Knowledge without power is a poison to the aware.

If we don't implement an antiparasitic to AIPAC, nothing we uncover will make a difference

Jan 3rd reposted:

What kind of society is scared to say stop child rape, when the rapist are migrants because someone will call you racist?

It's the same thing when Israelis kill children in Gaza. People are more afraid of being called anti-semitic than they are horrified by child murdering

Napolitano is a graduate of Princeton University and the University of Notre Dame Law School. He is the youngest life-tenured Superior Court judge in the history of the State of New Jersey. He sat on the bench from 1987 to 1995, when he presided over more than 150 jury trials and thousands of motions, sentencings, and hearings.

INSANE Reality of Ashkenazi Jews Genetic Origins
Evo Inception

What does it really mean to have Ashkenazi Jewish
ancestry? Beyond family stories, cultural identity, or
genetic testing results lies a profound and multifaceted
narrative shaped by ancient migrations, genetic
bottlenecks, and intertwining histories with Middle
Eastern and European populations. This video delves
deep into the extraordinary genetic heritage of
Ashkenazi Jews—one of the most studied yet complex
populations in human history.

In this video, we will discover:

The remarkable genetic bottleneck that reduced the
Ashkenazi population to a few hundred families around
2,500 years ago, setting the stage for a unique genetic
signature still visible today.

The clear paternal lineage tracing back to Middle
Eastern origins, preserved with minimal admixture
despite centuries in Europe.

The debated maternal ancestry presenting a complex
story of possible Near Eastern roots, European
assimilation, and recent studies challenging older
assumptions.

Genomic evidence showing Ashkenazi Jews' closest
genetic affinities are with Southern European
populations, highlighting shared Mediterranean origins.

The definitive refutation of the Khazar hypothesis,
confirming Ashkenazi origins rooted in the Middle East
and Mediterranean rather than Turkic peoples.

How medieval burial sites and ancient DNA analysis
reveal social integration, migration, and genetic diversity
within Ashkenazi communities.

The ongoing preservation of distinct genetic patterns
shaped by religious and cultural endogamy amidst
diaspora and adversity.

survival, migration, and genetic continuity from the
ancient Near East to Europe

The contrasting yet intertwined maternal and paternal
ancestries shaping Ashkenazi genetic identity

Why Ashkenazi Jews share significant genetic overlap
with Southern Europeans, reflecting a Mediterranean
heritage

The significance of genetic bottlenecks and founder

How ancient DNA from medieval cemeteries enriches

our understanding of Ashkenazi social history and genetic diversity

The impact of centuries of endogamy and limited admixture on the Ashkenazi genetic landscape

Why modern Ashkenazi Jewish genetics continue to evolve with ongoing research and technological advances

Epstein Deep Lore & More w/Ryan Dawson
Darryl Cooper ----- Jul 31, 2025

Sorry for my poor audio. I got a fancy new mic and pre-amp, and apparently I don't know how to set it up properly. I will get it fixed before the next time you're forced to hear my voice through it. There is video, but I'm still working on it.

This interview was meant as a follow-up to people who have already listened to my Epstein series, or have seen the interview I did on Tucker Carlson's show. We start with the assumption that listeners already know the outline of the Epstein story and related cases, and we jump right into the deep end.

For those who don't know, Ryan Dawson is the OG Epstein researcher. He was making content on the topic back in the days when nobody had heard of Jeffrey Epstein - including me, and I've been on this story way longer than most. Ryan was banned from every platform imaginable - Facebook, Twitter, PayPal, crypto exchanges, even MySpace - for talking about this when there wasn't even any public attention on the issue. When it comes to this topic, he's the guy.

Fair warning. Some of you might have a personal problem with Ryan because of how strident he can be when talking about Israel, whether with regard to the Gaza conflict, the State of Israel's influence in the US, and the connections of people like Jeffrey Epstein to Israeli intelligence. He goes hard, harder than me, and maybe too hard for some of you to bear. But, though he may be an anti-Zionist, he is not an antisemite. I've seen and heard him argue with real deal, rootin' tootin' antisemites who were upset at his insistence that this is about a destructive ideology, not any race or ethnic group. Whatever you think of him, there is simply no one better on this issue.

You can find him on Twitter at RyLiberty (he's a libertarian, but I'm willing to let that go for now).

He also has a Substack that you should support if you're interested in the Epstein space because, chances are, much of the information you've heard or read was originally uncovered by Ryan. His Substack is:

For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence.

The illusion of Palestinian statehood is back â€” and it's being sold over mass graves --- Middle East Eye ---- 3.18M subscribers ----- 16,825 views Aug 4, 2025 --- argues in her column against the latest wave of Western declarations on recognising a Palestinian state, arguing they amount to diplomatic theatre rather than genuine support for Palestinian rights.

-----France's Macron and Britain's Starmer present symbolic gestures as breakthroughs â€” but what's on offer is not a sovereign state, Ghannoushi says, but a shell under occupation: no borders, no army, no control over resources.

-----Amid Israel's ongoing war on Gaza and the expansion of settlements in the West Bank, she continues, these declarations are framed as a distraction from real pressure on Israel â€” with recognition offered not as a right, but as a tool of leverage.

Hate bein mysterious and riddle too obscurely so i'll just leave a hint/anecdote as to what 'causes' i might exshulie be tokkin about: the remedy to combat effects of glyphosate i benefit from and cannot do without the most is fulvine, an 80 liter cannister of which i bought for 80 euro some years ago .. with some delay .. cause the attendant did not have the

key to the locked hazardous agricultural ammo storage room .. in which it should have never been in the first place. They delivered free a little later.

Until the days of instant sterilization for stubborn post lawadJUSTment [more immanent than the world's end or T{erav}rillionth 'bloomin boomin' of 'jesus'] offenders [those who give themselves a hard time droppin 'extrusion' / monetiz{iono}ahzion chemistry, .. or unless thus blessed days arrive], many more ever abjecter fiats will conflate and flatten stone dead .. and earth may join mars' fate.

i remain intent on becoming not just your true chemical industry outphaser and outpacer ASAP in order to remain friendly and recast karma to whealy wheel wealz, a steady place to attract, banish and stick all thing asplicative n autistative and a stop to 'chem'ry' puts all the shity in- & evocative haunticazion of that energy for the sake of proj{evtive can}vasage and foeknee money clouticons to rest and in it's proper place ..

the most powerful word in the world is a p word and i suggest putting the pin in such that the pinned will spin.

And most importantly: don't take your own warnings[, specially not those issued, pronounced and uttered at a mild menace], as commands [don't flatter yourself, they won't be taken that way .. won't be as well received as sentsobering reminders and noorule installment 'drivers' and 'apps' and 'noo rulest2ripen by' for said menace']. Believe me, i learnt that the hard way. Vengeance is mine sLayeth the sLword onto the Lurid.

Everyone is not a federal agent. Nick is wrong. The fight between him and Candace is gay. Neither one of them gave a fuck about Palestine until the winds were favorable.
I find it odd directing the attack by anon frogs against Tucker right after he goes on stage and says Epstein worked for Israel.

But a lot of these people exist by creating flame wars. Its the only way they stay relevant is e-drama. Because they're role playing as researchers. They dont actually have that skill.

Ry: The only possible fed is Nick. He's clearly hated yet he was let go on J6 along with baked Alaska. Baked Alaska admitted he turned informant to stay out of jail. Everyone around nick gets canceled from Kanye to Sneako. All he does is burn bridges and attack other people on the right. He used to ally openly with Loomer. Now he had groypers attacking the Tates. They've been attacking me for about 5 years. I thought it was over me not being racist or Catholic. But im coming to realize they just attack anyone on the right who could be effective. Richard Spencer had a similar role and tapped out after Charlottesville. Nick was his replacement.

Labyrinths of hand-carved tunnels beneath the central Hebei plains tell a story of defiance and hope during the Chinese People's War of Resistance Against Japanese Aggression. The song "Tunnel Warfare" captures the bravery and ingenuity of the Chinese people. Through its melody, we remember those turbulent years and the enduring faith of people who refused to surrender.

Mother fucking fucking fuck. My flight on air Canada to Seoul from Vancouver 11.5hours doesnt have wifi and my seat doesn't have tv either its broken. Again everyone is pig ugly. At least its not faggots like the last flight. There is a day walker though. Hope there's no full moon. If youre seeing this it means we landed in Korea bc there's not fucking internet on an eleven and a half hour flight. What the fuck. Tariff Canada 200%.

Trump needs to forget about Iran and focus on the real enemy. The nosey moose fuckers in the North. There needs to be an Alaskan corridor minimal. Ottawa should be a nuclear testing ground. Think of all the resources and what could be done with that if it wasnt mismanaged by a bunch of retarded seal fuckers. We can't let valuable land be run by America and Britain's rejects. Its time to invade. I imagine one man on a horse could make Quebec surrender. But we will need at least a dozen rednecks to take the rest of Canada away from the Indians who took it from the Canadians who took it from the other Indians.

Druthers Magazine with a fair look at Ry's work; here's the last alineas:

By the way, Bill Gates is on that list. Just thought I'd mention it.

Ryan Dawson has seen some stuff that came out in court, which describes crimes against children "worse than sex

trafficking â€¦ bestiality and sick stuffâ€¦!" Maybe horror movie fans can imagine some of this. Not my taste.

I can tell you that some of it came out quite recently in sworn testimony, public testimony under oath and threat of perjury, in the Israeli Knesset. Men and women who dress in the costumes and profess the religion of Orthodox Judaism are publicly convicted of child sexual abuse and torture of children in Israel and beyond Israel, with their criminal connections within the global Diaspora.

And I could also reference an image more apt to Israeli "Intelligence" than the myth of Frankenstein, and that would be the story of the rabbi magician who created the Golem. It's a medieval Jewish fairytale about how revenge comes back at you.

The Golem is a giant which the rabbi makes out of clay and magically animates by inscribing on its forehead the four Hebrew letters of the name of God. Then the rabbi commands the Golem to destroy all the Christians who oppress, ghettoize, and murder Jews. The Golem destroys the walls of the ghetto, and all the cathedrals and all the Christians' houses. But then the Golem cannot stop. It starts to destroy the ghetto, and the synagogues and houses of the Jews as well. The rabbi has to destroy his creation. This he does by rubbing out one of the four letters, which results in the three Hebrew letters that spell Death.

So those damn Christians might just have a point? Maybe, as a practical and prudent measure, you ought to do unto others only what you'd want them to do to you? Because what goes around comes around.

Joyce, Landscape, and the Mystical Wake (including the influence of the Kabbalah). --- Finnegans Wake Notes and Dreaming --- 57 subscribers ----- 44 views Aug 25, 2025 #awakening #enlightenment #jamesjoyce
The provided texts primarily discuss James Joyce's engagement with mysticism and landscape in his works, especially Finnegans Wake and Ulysses. They explore how Joyce integrates esoteric traditions like Kabbalah, Hermeticism, and Theosophy into the thematic and structural fabric of his writing, often in contrast to perceived rejections of mysticism. Several sources highlight the symbolic significance of landscape elements, such as trees and stones, in conveying Irish spiritual identity shaped by both Roman Catholicism and ancient Celtic folklore. Furthermore, the texts examine Joyce's extensive use of American place-names and migration themes, indicating a transatlantic scope for the Wakean landscape and the Irishman's journey west, often referencing the Norse discovery of America. There is also considerable focus on Joyce's literary techniques, including his use of cyclical narratives, linguistic complexity, and the interplay of masculine and feminine principles in creation.

---Corrections: 1. In the triangle diagram a 7/4 interval is shown but 15/8 is heard. --- 2. The base 3 counting is kinda wrong. It should go "0 1 2, 10 11 12", not "1 2 3, 11 12 13". The latter implies a base 4 counting system. I believe the source I used for this was under the assumption that 0 doesn't exist in Klingon counting, which many argue that it doesn't. If there is no zero in Klingon counting, it's technically "correct" in context, but incorrect in presenting what base 3 actually is. ----- 3. I misspelled solfÃ`ge (curses dyslexia!)

This week on The Backlash, comedian and firebrand Leonarda Jonie joins the show for an unfiltered and explosive conversation about comedy, culture, and cancellation. From her Bronx upbringing and escape from communist neighbors to her rise as one of the most fearless voices in stand-up, Leonarda breaks down how multiculturalism, liberal hypocrisy, and institutional propaganda have shaped her red-pilled worldview. Her war stories from comedy clubs and woke venues

- The racial double standards plaguing urban America
- The Astroturfing of the dissident right by establishment players
- The grift of fake outrage, staged "cancelations," and Jewish influence in right-wing media
- Why the Federal Reserve is the true enemy behind it all

Plus: degenerate rabbis, rigged Eurovision votes, gay Israeli propaganda, and a scathing takedown of Matt Walsh's "secretly based" LARP. If you're tired of the fake right, weak men, and controlled opposition, this episode pulls no punches.

next one on Khazar history .. by JP Bristow .. the last part in fact ... 'offensive to some' warning for openers .. and he calls the subject matter [outlandish Gumilev theory, well received by Putin] "completely mad" .. but perhaps it's 'just' maddeningly true .. which gets worse by the day during times like these, .. too many ethnicities so delapidated and ragged and stampeded into bursting bounds .. that an ongoing genocide isn't reason and spur enuff to get mad in ways that effectively make difference.

the American, Israeli, Russian or Ukrainian governments. I'll need to find the polish Jewish professor that lectured on how even the 10th century Khazars were very questionably not even Jewish, but either way, genetic and linguistic evidence easily dispels the link between the Ashkenazi ethnic group and the Khazars, so I was glad to learn how the theory has become so popular. Although I don't condone bombing and starving any population, I do see the khazar myth being echoed often in wild social media discussions and podcasts and content rejecting the Jews claim to Israel.
All that said I noticed in your understandably scathing review of the Russian state, you denied claims that the

Ukrainian government wasn't indeed first overthrown in '04 and again in the maidan revolution with US NGO backed ultra nationalist banderovites like the football club turned neo nazi militia, the Azov Battalion. I recommend you revisit the conflict in the Ukraine through the lense of US neoconservative influence, because it is blatantly provable. Also, US neoconservative, Hilary Clinton, who was fined for financing the Steel Dossier to conveniently accuse her political revival Trump, whom I also detest, of Russian ties. The 3 year mueller investigation also proves this. This false narrative helped the neocons pedal influence to sell their us voters on funding a proxy war against Russia through their hand selected Ukrainian regime. So do Jewish khazars run Ukraine to threaten Russia? No, of course not, but western interests, heavily lobbied by AIPAC actually do. Again, I'm just an anti war American Jew that was studying my heritage, but I couldn't help but to chime in here.

invented centuries later.

Primary Ancient Sources:

Josephus, The Jewish War â€” gives figures for Roman reprisals: 40,000 killed and 1,200 enslaved at Jotapata, and 1.1 million killed with 97,000 enslaved after Jerusalem's fall.

Cassius Dio, Roman History â€” on the Bar Kokhba revolt: 580,000 killed, many enslaved, no mention of deportation.

Tacitus, Histories â€” describes the siege of Jerusalem and its destruction, but not deportation.

Suetonius, Lives of the Caesars (Vespasian, Titus) â€” references triumphs and use of Jewish captives, again no deportation.

Philo of Alexandria, On the Embassy to Gaius â€” mentions a million Jews in Egypt alone, showing the size of the diaspora before 70 CE.

Modern Historical Works

Martin Goodman, Rome and Jerusalem: The Clash of Ancient Civilizations (2007) â€” emphasizes destruction of Judea but continuity of Jewish life in Galilee; diaspora long predated Rome.
<https://www.amazon.com/Rome-Jerusalem...>

Peter SchÃ¶fer, The History of the Jews in the Greco-Roman World (1995) â€” details demographics, stresses that Rome devastated Judea but did not "create" the diaspora.

Shaye J.D. Cohen, From the Maccabees to the Mishnah (1987; 2nd ed. 2006) â€” discusses diaspora growth, identity, and the myth of exile.

Seth Schwartz, Imperialism and Jewish Society, 200 BCE to 640 CE (2001) â€” continuity of Jewish life in Palestine, decline of the exile narrative.

Israel Jacob Yuval, Two Nations in Your Womb (2006) â€” on Jewish-Christian identity formation, mentions continuity of Jewish settlement in Galilee.

Israel Finkelstein & Neil Asher Silberman, The Bible Unearthed (2001) â€” useful context on population estimates and demography.

Lee I. Levine, Judaism and Hellenism in Antiquity (1998) â€” context on Jewish diaspora in the Greco-Roman world.

These are the mujaheden that keep getting moved around from country to country any anyway. But there's going to be a slaughter. don't really care. They don't really care. They want to divide. They want to vodia. They want to divi divide Vadinia off the top and they want to divide Kosovo off the south of Serbia. So they only they don't really care. It's warfare, right? But we can't get any of those uh genomes from the UN. And Simon's been working on this for 30 or 25 years. So we've, you know, I'll do another show on this with Simon.
Uh, well, look at the coverage. I mean, look at the coverage. Um, if you have issues like look at the coverage, look at the coverage of Shrebbber. It I hate to say this, but I had to go to Belgrade, Serbia to interview Alexander Doran, and he's the one who told me we was

spent five years in a Swiss jail for just reporting the truth. And he said, "If you go there, you'll see it for yourself. A third of the names are Muslim names. They're facing Allah and Mecca. The other two-thirds are facing in the other direction and there are cerillic names. Now that is the metadata of somebody just saying screw this. Wesley Clark saying screw this. We're just going to just lace this thing with boweapons. Kill everybody. We're going to divide Serbia. We're going to divide Vadinia off the top and we're going to divide Kosovo off the bottom. And that's the end of that story. We're going to put Camp Bondsteel there. It's going to be Kosovo is going to be ours. That's going to be our pipeline for for Soros. Now, you may think that's not good reporting. That is good reporting, right? When you go and actually talk to the guy in Bridge over the River Dina and all this and I went to the battlefield and so forth and I saw with a broken foot, very painful by the way, and I saw that it was right. Now, to me, that's really good reporting. And that's reporting that that uh America would have never known because Alexander Doran was so suppressed. To me, that's real reporting. Uh not fake reporting. Uh and that's there's nothing about that that's tinfoil. -- 1:01:49

The Rosh Yeshiva of Grodna is Harav Drabkin Shlitah, and he explained the following to hundreds of his naive students!

I have to take back the word "naive" as most students according to this parent who emailed me said that the talmidim mocked and ridiculed him causing according to this parent a huge "Chillul Hashem!" and in addition, a lot of his talmidim lost respect for their Rosh Yeshiva

The Rosh Yeshiva explained that "Yes, there are soldiers with tanks and planes fighting the enemy but the victory comes only from the strength of those who learn in Beit Hamedrish with a "bren" a spark of fire!" The proof is that in Syria the soldiers did not use tanks and planes and yet Syria collapsed!"

First off, I need to point out that HKB"H is mentioned only twice in the entire article of over 500 words ! Reading the article you would not know that Hashem played any role! It is exclusively the talmidim!
In the first instance where Hashem is even mentioned in the article is in respect to a "mashal" about Yaakov!, and the second time about the war between the Chashmonoim and the Greeks!
I'll address the second time the Rosh Yeshiva mentions HKB"H, the first one is completely off the charts!
The Rosh Yeshiva stated:
"HKB"H gave the x-x"x™x? x'x™x" xçx•xjx§x™ xax•x"xaxš ... the arrogant (the Greeks) into the hands of those who were engaged in the study of Torah"
HKB"H delivered the Greeks into the hands of Maatisyahu who didn't fight in the war but sat and learned in Beit Medrish and learned Torah that is fire, it was in his hands that the Greeks were defeated and it was in his merit that the Chashmonoim won the war"

This idea that Hashem gave the Greeks into the hands only to Mattisyahu because he was learning Torah is not mentioned anywhere in the entire Shas and not even in Al Hanissim!!!

Plato and the Creation of the Hebrew Bible for
the first time compares the ancient law collections
of the Ancient Near East, the Greeks and the
Pentateuch to determine the legal antecedents for
the biblical laws. Following his 2006 work, Berossus
and Genesis, Manetho and Exodus, Gmirkin takes
up his theory that the Pentateuch was written
around 270 BCE using Greek sources found at the
Great Library of Alexandria and applies this to an
examination of the biblical law codes.

Ryan Dawson: coward shot a grifter who had
\$40 million from Zionist. We are so starved for
heroes that simply saying sex is biological is
taken as some revolutionary act.

Adults arguing with semi-retarded children to content
farm rage bait isn't really providing anything other than
entertainment for the type of low functioning people who
like to see the donkey get hit with the whip.

Not everyone gets shot because they are noble. You can be
stabbed in the neck simply for being on a bus with "doctors
and engineers". A pointless death. Charlie Kirk was a
pointless death, most likely because some loser got
triggered by the middle school debates. Gone are
discussions between adults. It's all gotcha bloodsports
asinine click bait.

We dont need to argue with donkeys.

If someone steps up to a microphone and says "Im a cat"
and then you start arguing with them to say no youre not,
now you're both retarded and wasting everyone's time.
The proper response is to laugh at them say stfu get off
the stage. Do not dignify extreme stupidity with a debate
medium. Dumb people should just be removed with a
firehose.

Kirk was a midwit kiss up to power. We want his death to
have meaning. It didnt. It was utterly pointless. Being at
that campus to re-argue the same no-shit-sherlock
positions against low hanging fruit was also pointless.
Conservative leadership should be so childish and vapid.
Zionist need us to argue about what a woman is because it
keeps the heat off of them.

Kirk, Peterson, Shapiro, bet David, Walsh, all played this
game running cover for Zio. Kirk was just starting to go the
way if Candace and he was killed. That doesnt me israel did
it though. Its far more likely some faggot with a grudge.

= the above and in addition:

UPDATE they caught him. And yes he thought he was
fighting fascism. Not surprised at all.

Tyler Robinson 22 year old terrorist who shot Charlie Kirk
was turned in by his family.

Despite being brought according to school standards. Tyler
went to University for one semester and was living with his
parents. According to discord message and his roommate
Tyler picked up the rifle from a drop spot which means we
have co-conspirators.

"One of the unfired casings said, according to Cox: "Oh
bella ciao, bella ciao, ciao, ciao." The lyrics reference the
anthem of the antifascist Italian resistance during World
War II.

Cox said that another read, "Hey fascist! Catch!" The casing
also had a series of arrows that pointed up, right, down,
down, and down in reference to a cooperative shooter
video game called Helldivers 2. The input is the code for an
airstrike. It has morphed into a meme and is used to imply
a devastating reaction to something that should be
destroyed.

The third unfired casing, according to Cox, said, "If you're
reading this, you're gay LMAO." The Italian song has been
adopted by ANTIFA as their theme song. "Hey Fascist
Catch" shows he thinks he was shooting a fascist.

The other things are video game culture reference and
memes. Not saying ALL video gamers are like this but there
is a niche of incels that live in a virtual world who really
need sun light.

"The fired casing, according to Utah governor Spencer Cox, read "Notices bulges OwO What's This?" The phrase references an internet meme tied to animated videos and furry culture. OwO references an emoticon, and "what's this?" denotes cuteness or curiosity. It's frequently referenced by video game streamers."

-----Chetzmom4 said: In Michigan the FBI took a few lonely dudes with no money and no plan and the FBI GAVE them money, a van, weapons, and even more conspirators, who were OTHER FBI! Why do you immediately jump to believing this kid just had some other Antifa losers helping him? Really?

Now you want people to believe that this is All Antifa plot? Why? WHO benefits from a C-Zio Martyr? WHO~ Ryan? CAN YOU GUESS~ because you talk about Mizz Izzy all the time, in regards to JFK & Epstein. But you think their hands are clean in this instance, even though Mizz Izzy's propaganda & American's opinion on Her is plummeting.

A martyr is just what the doctor ordered, but you think this dude was just a rando.

Do you see any connections to Mizz Izzy, or have you gone over to the Dark Side? You don't think that this messed up kid could have been Groomed into doing this, just like In Michigan, and other times the FBI has done this? Wow.

What happened to you?

----- Margaret Anna Alice: I'm listening to the audiobook of Douglas Valentine's "The CIA as Organized Crime" right now, and I appreciated your thoughtful interview with him that appears as one of the chapters, Ryan.

With that context, I'm surprised to see you taking the media's story about this at face value. This instantly had the markings of an intellimafia hit intended to kick off a violent civil culture war, which they would then use to ramp up tyranny per the standard Problem-Reaction-Solution. They tried to do that in the sixties with a race war and failed; this time, they're trying it with a culture war, and I believe it will fail, too, but there will be less bloodshed if we call it out from the beginning.

As I wrote yesterday in my piece on the intellimafia (<https://margaretannaalice.substack.com/p/memes-by-themes-20-the-intellimafia>):

"You may love Charlie Kirk; you may loathe him. The fact that he is such a firebrand for the manufactured political divide makes him an ideal sacrificial lamb for maneuvering in the next phase of totalitarianism.

"The intellimafia wants you to think this is about left versus right, gender politics, immigration, race, Trump, and every other hot-button topic they've installed in people's minds so they can mass-manipulate the populace at will.

"They want us to hate, feel outrage, blame the other, strike back, and dive head-last into uncivil war.â€¦

"They want to toss out the ragebait and hide behind the curtain while we dogfight.

"We defeat their attempts to divide, dissipate, and decimate us by refusing to let them play our emotions, cognitive biases, and trauma like a well-worn record.

"We cancel their programming by remembering one another's humanity, engaging in respectful dialogue, cutting the puppeteers' strings, and alchemizing pain into

Even if this was a LIHOP instead of a MIHOP (highly unlikely given the confluence of factors pointing to it being orchestrated), we need to be exposing the magician's sleight of hand and misdirection instead of being enraptured with the trick, or people will continue falling for the same textbook tricks over and over and over again.

Celebrities Should Have Been Calling Out The Gaza Holocaust This Entire Time --- Caitlin Johnstone == 34.3K subscribers -- 1.7k/4h ---- Sep 15, 2025 JOHNSTONE radio ----- "Hacks" costar Hannah Einbinder said "Free Palestine" during her acceptance speech for Best Supporting Actress at the Emmys on Sunday. Questioned by the press afterward, Einbinder said she has friends in Gaza, adding, "I feel like it is my obligation as a Jewish person to distinguish Jews from the state of Israel, because our religion and our culture is such an important and longstanding institution that is really separate to this sort of ethnonationalist state."

I've followed Einbinder on Instagram for a long time because she's been one of the few people in Hollywood consistently using their influential voice to oppose this genocide, and it is very good that she said these things. Hopefully we see much more of this.

But right now I can't help thinking about how unforgivable it is that all the other Hollywood celebrities haven't been using their platforms at these events to call for an end to the Gaza holocaust this entire time. For two years this nightmare has been normalized in the eyes of the public with the assistance of the vast conspiracy of silence between all the people with the largest and most influential voices in our society.

Charlie Kirk is not a hero of the white race, but a rabid anti-white Zionist complicit in our race's
displacement. The theory of Israel behind the assassination is ludicrous as he was one of the
few with credibility to sell Israel to America's youth. The Democratic left not accommodating
radical over-educated, unemployed anti-Zionists is having disastrous consequences.

American conspiratorial thought in right-wing politics stems from concealed leadership of the
country lying to the public. The laughable incompetence of the FBI under Kash Patel in catching
Kirk's killer could push rightoids to demand expansion of government overreach. Friend-enemy
distinction needs to lead our political worldview. The left is far more equipped for revolution
than the right.

Ryan Dawson: I dont see eye to eye with @NickJFuentes on hardly anything. We are probably the most anti-israel people in the world albeit mine stems from a humanitarian perspective and he's just antisemitic. But even we agree Charlie Kirk was killed by leftist homosexuals not the israelis. Israel is committing genocide. You dont have to start inventing extra stuff to hate them.

Israel could start encouraging a hate group to do it. But Kirk had not yet turned on them. He was still servicing them and promoting their avatar Trump on whatever he did. He allegedly rejected money from Netanyahu because he knew if he accepted it TPUSA would have zero credibility. It's not verified that this even happened.

And no one hates them more than me, and no one has tied them to more actual conspiracies than me.

It was a faggot-on-the-roof. He is on film and has matching prints. Was there a larger antifa/trantifa network? Very probable. Their home had out of state visitors.

I do not agree that everyone exploring Israeli motives is a "Russian agent" lol. There was a donor faction that was not happy with Kirk's obedience level for sure. His close friends are trying to put a nobal cause on a senseless death. "He was about to flip on the Zionists," gives it some meaning. But in reality it was idiot ping pong with children that can't read stats, dont understand per capita and deny biology in favor of make-believe.

I need to teach a class on evidence based conspiracies vs internet-spazz

The authorities lie so much that they deserve this auto-skepticism. I get it. But dont be dogmatic with something bc it fits your world view. Israel is probably mad that someone shot him before they could arrange a pro-Palestine patsy to do it.

These trans ma'ams are indignant self righteous zealots under the delusion they are fighting fascism.

They've always been disproportionately violent which ironically was the last point Charlie was about to make. RIP.

Ry: A new kook movement in born and I blame this on the government for constantly lying to everyone about everything. Trust itself has been destroyed. And now you have paranoids accusing anyone who disagrees with them of being a government agent. Or "getting the call". I knew as soon as Kirk was shot that this was going to happen. I knew each faction would blame their political enemies and I knew the conspiracy inclined were going to invent something no matter what the forensic evidence was they will just say it is fake and everyone is in on a cover up.

Defending your nonsense is not necessary when you are part of a horde. Everything is a conspiracy because conspiracies are fun. Evidence be damned. You can have a shot from behind with no entry wound because why not. You can have phone shaped guns and neato weapons that no one can hear, and hand signal guys who just happened to be the same security detail at all his other events because fun. His own employees taking down cameras which were given to the FBI no that's a mystery guy hiding the evidence. Why don't they put his corpse on TV and conduct pathology on live stream otherwise we cant trust what they say. There is no exit would on any of the footage from multiple angles but we are gonna still act dumbfounded when the bullet is found still in the body even though that is the only place it could be, because we have to automatically disagree with anything authorities say. Never mine our own eyes not seeing a bullet come out. And no it did not exit the same hole it entered. It will never end because people are married to dogma. it is just going to get worst and soon even video evidence will be chalked up to that is AI

Charles Hammerman Rivkin (born April 6, 1962) is an American media executive and former United States diplomat who is chairman and chief executive officer (CEO) of the Motion Picture Association (MPA). 5M reward for cryptphone hawkin dubbagent as part of prot prog proolly ... what's with all that shit always involving sweden?? proolly not related Maximilian the state dpt did a write up over:

"Rivkin was administrator and influencer of an encrypted communication service used by criminals worldwide," the State Department said in its reward announcement. "His communications on the platform implicated him in several nefarious activities, including his alleged participation in drug trafficking, money laundering, murder conspiracy and other violent acts."

The department did not say where it suspects Rivkin might be hiding. Officials said he has scars on his knee and fingers as well as a tattoo of three monkeys on his right arm. His nicknames allegedly include "Malmo," "Teamsters," "Microsoft" and "Max."

Officials say he unknowingly was a central player in the FBI-led operation. In 2018, the U.S. law enforcement agency forced a man who had built encrypted phones for criminals to develop an updated version for which the FBI would hold the sole digital master key, allowing them to collect and read all communications through the system.

With the man's help, the system was marketed as ANOM and promoted by unsuspecting criminal "influencers" like Rivkin, who took a primary role in convincing others to use it, with spectacular success.

More than 12,000 ANOM phones were sold at \$2,000 apiece to criminal syndicates operating in more than 100 countries, including Italian organized crime, outlaw motorcycle gangs, and international drug cartels, according to the U.S. Justice Department.

From them, the FBI collected 27 million messages, involving operations large and small. One showed a trafficker arranging to send two kilograms of cocaine to Europe from Colombia using the French embassy's protected diplomatic pouch.

What about the Syrian people being slaughtered, raped, displaced, torn from their communities, terrorised and ethnically cleansed? Holy f*ck this world is a multi-layered reflection of Hell. Zionist Billionaire Robert Shillman financed both Tommy Robinson and Charlie Kirk. He's a right wing anti-muslim pro Likud Jew. These groups always have financial whales that tell them what to say and do.

His name has shill and man in it. His donations dipped when Charlie didnt stay tightly on the script. TPUSA should have put more of their money into security. Who Killed Charlie Kirk? NATO Ramps Up for War with Russia

<<https://substack.com/@larrycjohnson>>

<<https://substack.com/@larrycjohnson>>Larry C Johnson

Sep 23, 2025 ----- I am sorry to return to the subject of Charlie Kirk's assassination, but I am receiving a ton of emails with questions and theories and, rather than answer each one individually, I want to address some of the issues.

Let me state up front that the flood of alternative theories about the firearm used to kill Charile (e.g., a palm-pistol, a 30-06 rifle, a 22 pistol with a silencer) and the direction of the shot - i.e., from the front, from the side and from behind - tells me that Charlie's murder was not the work of just one pissed-off 22-year-old who was in love with a transgender furry. Creating a number of false stories and false leads is something that an intelligence organization does in order to misdirect a law enforcement investigation. Frankly, we witnessed the same phenomena with the failed assassination attempt on Trump in Butler,

Pennsylvania in July 2024.

For starters, it was not a palm-pistol that delivered the fatal shot. The ballistic sound recorded on film when Charlie was shot is not consistent with a pistol. But beyond the problems with the sound, a palm-pistol is a point-and-shoot weapon and it is not a firearm that allows for pinpoint accuracy. If you are seven-yards away from the target - and you are shooting at a bullseye - you are not likely to hit the bullseye. Even the most skilled pistol shooters have trouble hitting a two-inch target at 25 yards and beyond. I have double-checked my thinking with one of my FBI Hostage Rescue Team buddies and he agrees. ...

I believe BB's point of view, which is we we we are doing we're --55:32 --a good partner with the United States. If if there really was a whole bunch of --55:38 --Hezbollah and Hamas and all these terrorist organizations running the Middle East and running the oil, you might not think that that's a big deal --55:44 --right now, but come few more months from now and you're living in Minnesota, you may think eating oil is a big deal. Now, --55:50 --I know that everybody says America can take care of its own needs and so forth, but it could strangle Europe. It is oil --55:57 --is important. Three days of the Condor with Robert Redford, you know, don't Cliff uh uh I can't --56:05 --remember Cliff uh the actor, but he says don't ask them now. Ask them when they're freezing, you know, if they want --56:10 --the oil. Right. So, I think BB is going to roll up to Gaza. We said it in

Braverman Prophecy. I wrote a 20part --56:17 --series on it. It's all coming true. I agree. That's all happening. To me, that's a part of that's like New Jersey --56:26 --to Americans, you know, oh, we got this Hezbollah group forming in New Jersey, right? And --56:32 --here's New York, our financial capital. That's how close things are, right? Israel's the size of New Jersey. So, so --56:38 --it's it's like, oh, the Jersey Shore, right, is now been taken over by this group that wants to kill Americans. --56:43 --That's how they views the Gaza, right? The Gaza is is a heartbeat away from, --56:51 --you know, Tel Aviv, right? Hifa, that's their high-tech. That's their um their --56:57 --MIT, their Harvard. Okay? That's how they look at at at at Gaza. The folks --57:03 --that are looking at Ukraine, right, are a whole different breed of cat. They're --57:10 --uh super Zionists who want to take the Black Sea to the Baltic because --57:15 --Katherine the Great said that it was theirs. And now we're gonna have World War II on the benefit of them. And now --57:21 --we're going to have be drafting people. Right now we're going to be drafting people and sending them over for this dream, the super Zionist dream. That's not my dream. So I'm trying to put a point of differentiation in there. I know everybody wants to throw BB out with the bath water, right? They want to throw BB in with the Ukraine thing. BB is the Gaza thing, right? And that's a long history and I can talk to you sometime when we have the time over the long history of Gaza, but that is not the same World War II triggering event as this recapitulation and reconstruction of the old pale, these super Zionists that want to do that. And that's those are two different things. Those are two different things. um multifaceted uh hit profile. Lots of teams benefit including Trump definitely Israel.

.... riveting look at a family's disintegration amidst the turmoil of the father and youngest son being charged with child molestation.

Arnold Friedman taught computer classes to children during the late 1980s. But when the U.S. Postal Service discovered a foreign child pornography magazine sent to his home, an investigation was launched into him and his family.

Some of the children in Friedman's computer classes told of sex games during their classes, while other children gave no reports of sexual abuse. Through their own home movies, the Friedman family talk and argue about the investigation. Lives are changed as Arnold Friedman and his son Jesse head to trial for their alleged crimes.

This documentary is a haunting depiction of a disintegrating family, and a powerful argument on the elusiveness of truth. Very intriguing story with so many questions left unanswered as to the guilt or possible innocence of the parties involved.

The 1989 Friedman prosecution, in which Arnold Friedman and his son Jesse were convicted of multiple charges of sodomy and sexual abuse, said to have taken place during a computer class taught by father and son, is strikingly similar to other mass sex abuse cases of the 1980s.

Communities across the country exploded with outlandish accusations of day-care "sex rings" and multiple-victim child abuse by teachers-among them the McMartin family (preschool teachers accused of engaging in ritual Satanic abuse, including drinking the blood of babies) and Kelly Michaels (a day-care worker accused by 20 children of licking peanut butter from their genitals, shoving assorted objects-including a sword-up their rectums, amputating one boy's penis-never found to be missing-and turning another child into a mouse). These spectacular allegations have since been exposed as utterly false. The convictions lacked physical evidence and relied on children's testimony obtained by discredited investigative techniques.

Jesse Friedman's own attorney describes the documentary as containing interviews, cut and spliced, and taken out of context. Jesse Friedman spent 13 years in prison for crimes that

almost certainly never occurred-and to which he was forced to plead guilty because the hysteria of the moment made a fair trial impossible, adds his attorney. More in the following link:

The film creator, Andrew Jarecki, continues to maintain that if the film had been less evenhanded the audience would not have thought deeply about where the truth lay. However, was something left out?

How the West failed the moral test on October 7

MCC Brussels

30.1K subscribers -- On 7 October 2023, Hamas carried out a coordinated slaughter across southern Israel, massacring civilians at the Nova music festival, in kibbutzim, and in border towns. Many Israelis likened it to a modern pogrom. But what followed abroad was, in its own way, just as chilling: equivocation, denial, and in some quarters, open applause. ----- This short film explores how antisemitism has returned to the heart of Western culture.

Why has Israel been uniquely branded "genocidal" simply for existing?

Why did so many in Europe and America side with Israel's enemies, or stay silent?

And what does this reveal about the state of Western civilisation itself?

Road narrows, pouring down

I'm breaking without a sound

Bits and pieces of trying

Get what you pay for, nothing

Frozen dreaming of yesterday

Potent, creeping I'm far away

From my hometown I lit out

To save my skin and shed some doubt

I know how false the floor

How high the sky

Been down that road before

It's a lie, you hide in someone else

Like a shining scalpel, cut yourself

Nicole Frolick broke all conditions of her agreement with Douglas Dietrich when she published a heavily censored version of their interview to be used as a platform for comments posted by Douglas Dietrich's gangstalkers. The attacks come in the form of character assassination attempts against Douglas Dietrich, since no one can refute the factual evidence and solutions he presents. By covering up evidence and aiding convicted child predators like Gunner65 (Richard K Cole aka Stuart Allison [see Stuart Allison Arrested for Child Pornography @ <https://www.pressreader.com/uk/the-co...>]), Nicole Frolick proves herself to be a pedo-predator as well.

In 1978, Vanessa Redgrave received major backlash for her Best Supporting Actress Oscar acceptance speech. In today's video, I'm going to break down everything that led to this moment and the ways the industry reacted to it-why Vanessa Redgrave made a documentary in support of the Palestinian people, how violence erupted to silence her, and how her anti-Zionism affected the course of her career.

The United States has spent at least \$31 billion on Israel's wars since October 2023, including between \$9.65 billion and \$12.07 billion on operations against Iran and Yemen alone

This data does not account for the \$6 billion worth of additional equipment that the Trump administration is currently seeking approval to send to Israel and is only an estimate based on publicly available information, not deals made behind closed doors.

https://t.me/Middle_East_Spectator

That's \$45 million dollars EVERY. SINGLE. DAY.

The US is not on the verge of civil war

The dollar is not about to collapse

Russia is not going to invade Europe

You're not getting Epstein or 911 Files

Stop falling for grifters

After 26 days of bullshit about trap doors and communist and tactical gear guy, Candace releases a text message that someone gave her, and people say she's a one woman FBI.

Kirk wanted israelis to handle their own propaganda and not sub contract it out to people like him Because people were calling him out for being the paid shill that he was. This is why he put Josh Hammer on stage to lose a debate and also brought on Tucker Carlson. You do it if your so good at it, because Charlie was getting wrecked on the question of genocide and the US's bitch status to Israel.

Here is what no one wants to recognize. He had no choice but to seek advise on how to be a better zionist. Because billionaire jews donate, and non jews do not. They win because their upper class is political and hateful and willing to spend money. The rich goy are hedonistic. Imagine if ANC got 40 million or even 2 million. I could do college tours and argue against zionism, could explain Epstein and 911, Israel dragging the US to war etc...

That's not going to happen. What did people do when I just released a 911 documentary? They're clipping it and putting it behind their own paywalls. We have a community on X obsessed with content farming and rage baiting, anything to up their own profiles. If they find a good source of information they don't relay it, they position themselves as a middle man and never share who they are farming off of. Well then don't complain when we lose.

Jewish Zionists don't do this. They find a brain and they finance it. They don't protest, they lobby. They don't argue, they get their opponents censored. They don't build, they buy. They pay for influencers they don't try to become them. They are organized. We are not.

We could win with 1/10th of what a single donor spends on TPUSA. They don't have any counter arguments. But they don't really need it because social media ownership works. Our side doesn't support our creators, they steal from them. They pirate, plagiarize, self promote off others work. And where is the goy Robert Shillman, Miriam Adelson, Paul Singer, Michael Dell, Bill Ackman?

Uninvolved. And that's why we keep getting kicked in the teeth.

ANC Report
scaping Capitalist Extraction and Socialist Rationing: Toward a Resource-Based Economy
Humanity has spent centuries trapped in a false binary: capitalism and socialism. Two ideologies that, for all their slogans and theoretical opposition, rely on the same root mechanism-control through scarcity. One extracts through ownership, the other rations through management. Both claim to serve the people, yet both depend on keeping the majority of us dependent, scrambling for access to what we ourselves produce.

Capitalism says, "Work harder, compete, and you'll earn your share." But that share is always shrinking, siphoned off by those who control production, land, and energy. The myth of the "free market" conceals a system of constant extraction-where rent, debt, and patents turn natural abundance into private leverage. Capitalists build empires by enclosing the commons, walling off what was once free and charging the rest of us admission. Socialism, for all its moral appeal, often falls into the same trap from the opposite direction. It replaces the corporate oligarch with a bureaucratic planner. Resources are no longer owned by private entities-they're administered by the state. But the scarcity remains, now justified by quotas and ration cards rather than dividends and price tags. The worker may be less exploited, yet still not free.

The flaw in free-market libertarianism

Mises vs Keynes vs Friedrich List

What the Austrians got right & wrong

Why personal net worth is the real

The theoretical origin of money

why? We live in a really strange time with

Book: The Devil's Chemists: 24 Conspirators of the

International Farben Cartel Who Manufacture Wars by Josiah DuBois Jr. ---
<https://thedukereport.substack.com/p/...>

Discover the chilling true story of the industrial titans who bankrolled Hitler and built the machinery of the Third Reich! This explainer video delves into the unprecedented 1947 Nurnberg criminal trial of the 24 Conspirators of the International Farben Cartel-the notorious I.G. Farbenindustrie-charged with preparing and waging aggressive war, plunder, and mass murder. Learn how Josiah E. DuBois, Jr., leading the prosecution team alongside key staff members Drexel Sprecher and Belle Mayer, sought to hold these "Generals in Gray Suits" accountable for crimes previously unseen in history.

Totalitarian Industry: Fueling World War II

Explore how Farben, described as a "Threat to World Peace", wielded influence over every aspect of life, from medicines (like aspirin and atabrine) and dyes to advanced synthetics. The video uncovers the secret military coordination office, the Vermittlungstelle Wehrmacht (V.W.), masterminded by Carl Krauch (Goering's General Plenipotentiary), which directed Germany's feverish rearmament.

See how the scientific geniuses of the Vorstand (Board of Directors) drove the war machine through pivotal technologies: Dr. Fritz ter Meer, the leading buna rubber expert, masterminded the synthetic rubber program. ...snip...

Auschwitz: The Ultimate Crime

The explainer video presents the horrific details of Farben's crimes against humanity. Witness the testimony detailing the construction and operation of the enormous, infamous I.G. Auschwitz (Buna-Monowitz) plant, where 100,000 inmates cycled through forced labor. Learn how Dr. Otto Ambros, the plant's manager, and engineer Walter Duerrfeld utilized slave labor under brutal conditions, achieving a staggering human turnover. The video also covers the medical experiments directed by Nobel Prize winner Heinrich Hoerlein, involving the testing of drugs (like Methylene Blue and typhus vaccines) on helpless concentration camp inmates. Furthermore, Farben affiliates produced and supplied the infamous poison gas, Zyclon B.

Judgment and Legacy

Witness the controversial outcome of the trial, where, despite overwhelming evidence, key industrialists-including Krauch, Ter Meer, Schmitz, and Ambros-were acquitted of the primary charge of "aggressive war". See how many of these convicted men, like Max Ilgner and Fritz Gajewski, were released shortly after sentencing and returned to powerful positions in the resurrected German industry, highlighting the complex political forces and post-WWII fear of Communism that shaped the judgment.

Ryan Dawson:

You dont have to believe in any of this nut at least get
your theology message correct. Christ isnt King.
Christ came to be emulated not worshipped. He came
as a savior not a king. He rejected all the kingdoms of
the world. He came to give a path to salvation not to
be a political ruler.

It is Jews who wanted a new king like David or
Solomon. It is Jews who wanted Earthly possessions
and rule. Jews mocked Christ with a crown of thorns.
It was Jews who had Christ killed. It was Jews who
guttled the Bible.

It was King James who wrote "King of Kings" in
Revolution. It had said "one above all".

...on Earth as it is in Heven...

... as above so below ...

Judeo-Christianity is a bastardization of the word.

Judaism is rooted in guile, deception, ignorance,
revenge, obedience, violence and jealousy.

Christ taught, truth, love, wisdom, forgiveness, peace
and charity. The two faiths are polar opposites.

Yahweh is as Jesus said he was. Satan, and the
synagogue of Satan that serve evil. Jews worship the
Devil and carry out her Will.

Looks like AnaK

The ZOMnies are after Tucker. Lets be clear. They dont care that he talked to a racist supremacist Catholic bigot. They care that Nick's team isn't Jews. They dont mind supremacy or religious bigotry or violence, that's them. What they can't stand is Nick, as an antisemitic Christian, is redirecting Christian sheep to hate Israel rather than worship it.

Tucker promoting a guy whose hero is Stalin and thinks imperialism is good and genocide is good so long as its whites doing the killing of non whites and is now supporting a war with Venezuela, is a stain on Tucker's reputation.

And it's not out of some free speech absolutism either. It's because groypers bullied Tucker to death and he caved because he's a pussy. Doing this right after promoting 911 kook nonsense was the double dose of disappointment.

Nick is a two faced con and possibly Tucker only knows his twitter and not his shows. But I doubt it. All that said, there is nothing lower than Randy Fine, Levin, and Cruz. They are jewish supremacist treasonous trash. They can not point their fingers at anyone. They are the worst parts of Nick without any of the good. Tucker gave them a layup.

You can be antizionist without promoting filth that wants to marry a 16 year old when he's 30. Or thinks women shouldn't be education beyond high-school. Tucker lost.

He had the high ground now he's treading water, only good because his prime enemies are worse. He knew about israel his whole life and didn't say a word against them until his 50s and only after losing his Fox News job.

He has a position to amplify the voices of people who took all the hits and stood up for humanity from day one and instead he does this shit. L.

Forwarded from Ryan Dawson

Tate grew up poor and sees financial success not only as a good in and of itself via provisions but as social validation. Most people are that way.

Do you get a super car because you love driving or because you want the envy of your neighbors? In his case its not either/or its both.

Status chasing doesnt bother me. But that is because from a young age ive always been praised for my mind. So I already had a sense of selfworth. The stuff I enjoy and where i lived didn't cost anything. The beach is free, the ocean is free. A heavy bag, a basketball, a notebook these are all very cheap. It would be easy for me to preach a spartan life style. But when you have a girlfriend or wife all that changes. Now you need a house not a room, a car not a bike, vacations, clothing, etc.

So even if you dont desire things yourself, women do, they just do, they all do. So ppl. need that ability.

I too wish he would finance a film or two and he could without even noticing it. But probably every friend he's ever had has asked him for money, so I am not.

Our side just doesnt have financial whales. Jews do and that is why they win. Gentiles call them greedy. But who is more greedy with their money than a rich gentile? You out number Jews 50 to 1 but where are our billionaire donors?

Oh thats right, not fucking kids.

But there is a tremendous amount of malemale aggression in bonobo society. In fact, more than chimp society. And the overall rate of aggression in bonobo society is substantially greater. And if you remove what might be outliers like um chimps --5:11-- killing other chimps usually for probably gross infractions of the the hierarchy and social norms or or just in warfare or in warfare intertribal tribal intertribal warfare. And why is there intertribal warfare with chimps? Because they have they're in more resource uh there's more resource competition in the regions that they're they exist in. Um, that's not why. That's not why. But, um, no, it's not. It's not. It's because there's more uh there's more intraexual cooperation between chimpanzee males than there is between bonobo males, right? So, the intertribal warfare doesn't occur doesn't generally occur in lean seasons where everybody's like hungry um and resources are scarce,

right? because everybody's just focused on getting as much extracting as much food out of the territory that they have and they're too weak to go to war, right? It's when they're fat and bored that that they go to war, right? Yeah.

6:21

So, it it's a little bit more complicated than saying it's like a resource competition. If it is a resource competition, it's it's kind of that that evolutionary psychology kind of explanation like male lions don't understand that sex makes babies and they don't understand that they want to make their own babies, right? But they still kill all of the babies of of the previous male when they take over a pride because it and they don't know that it's going to throw all the females into estrus and they're all going to be willing to mate with him, right? Um they don't they don't understand that. They're not they're not making a calculation, right? It's just that the males that male lions that do that, uh, they pass on more copies of their genes. And the female lions that kill their, uh, small litters, one, two cubs, um, and then just go into heat right away again and try again and have a large larger litters typically, right?

They end up having producing more offspring over time, over their lifetime. And presumably the female lions that felt kill other lioness's cubs also get more of the lion's share of resource. Yeah. No. So I mean it's it's like well I mean there's no lion's share of resources. The lionesses do all the hunting but um they they get they get the lion's share. Actually the lioness's share of the genes passed on. The reason why the lions, the male lions are the size they are is because they there's different types of prey to exploit during different

seasons. So they keep -- 8:11 -- their size in order to be able to muscle down larger prey. That's because that's

because a lot of lions are on their own.

The Crusades Never Ended. Zionism's Medieval Christian Roots EXPOSED | Prof. Manuel J. Ramos

Neutrality Studies --- 3.8K views -- 3 hours ago

The age of European colonialism never really ended, it just changed its costume. Today's geopolitics look and feel so barbarian medieval because they are the ghosts of the Crusades and a forgotten medieval legend.

To explore these startling ideas, I'm talking to Dr. Manuel João Ramos, an Associate Professor at the Dept. of Anthropology at the University Institute of Lisbon, where he has been working for decades on questions of European Colonialism and Power in International Relations.

We trace a 1,000-year-old story, uncovering the surprising roots of Christian Zionism, the messianic fantasies behind the "Age of Discovery," and the religious undercurrents that still shape Europe's troubled relationship with the world.

my takeaway:

faith communities are mountainous

politics is downstream lowland muckutti mockmikeluck

a few layers above that is the drama that really goes around:

a king is exposed to temptation, hence gold, to assuage suspicions .. but the time comes he wants to test
his bluff / popularity, deception quotient with a confidence / blind loyalty game .. sacrifice the gullible,
improve the gene pool!!!

the logistical corner cutting become the life threatening of tec if gold becomes the default and/or focus ..

Your Guest Mentioned Denazifying Twice

.... many minutes apart, first one remarked on the Putin take and the second implied a cuckification waypayvery .. aye? 'averij' .. in dutch it means hull damage .. totally by the [water]way ... dem horse n humandrawn 'tugboats - trekschuiten - were a thing well into last century hereabouts ... last matriarchy hold out [predykery] swamp [see 'wabond' on youtube, warmly recommended ... you might find out why i can't hang my balls 'hors textile' but women can do magic] but that's perhaps too much flourish for a hasty digitarian tho not and never besides the point [always plotted against pointlessly ... Anyways, ... so i'd like a special Backlash Episode about what exactly maritality is [under the noted metastatic stages of plundernorm stringency] ... books have been voluntary shackle alts to those who long / strain / hanker n strive for a mental grasp rather than bionic grip that squeeze da whirlfew of grippie vision beyond the frissions of frictional, tangible 'restraint' ... and what ropes mistaken for, whorified and slipslap dramanted into snakes have always had and have do with them.

Avery being halfwayhouse to shipwreck, it proilly stems from nave ... the boatman of the indusvalley .. a baphie prototype taking to his legs never ... cause of that sexmagic a lock provides .. and of course helmsmen can be that way ...and get 'horny' ... goin antlery in lusher territory i said a lot of confetti here ... but all i meant was:

Putin is dealin w ricochet nazism

As always and everywhere, bad habit unremediated and not core acted for long enuff to embed and get all defense and stuck into the club, cult, a living, a culture pipeline to the clearing installation that is our genetic auction house of patents, our notoriously hard to wash clean again genes, need intergen karmic quarantine, iow, long enough to make the latter succeed contra all the humorless truerot resistance, clever addies to which these patients and .. there's that word again, cure-averse devils are always lookin to.

Putin deals with 'ricochet nazis,

grantsjillurz of Stalin pivot stampeded bolshie [cum nazi cum ziocon] insectifyin . density uppin stackibilizing spasmites, returning to claim property they are duped into believing was 'left behind' by ancestors chased from it, after they had turned around a welcome into a nemesis, guest assimilant status into henchman and executioner ... a centennial of all that has been goin swimmingly for over a decade now ... just the kind of tithe these bastards go for every time.

Western Denazification

was indeed, as indicated by this Dugin mannerismite, cuckwash and poopcock ... the latter btw constitutes the entirely needful, not to say urgent focus on the new colon[ial]ism ... smooth lube sabotaging thanateckey agricultural ammo calls the glide of glycine ruled primary parts [you know your ass was done before the rest of ya, riiiite?] to the cringest of cruel sadomaso paralytic bondage no wordwielders have been found to back me, fight back to back with me against

Dr. Rabbi MARVIN ANTELMAN obm
June 20, 2006 Interview on The Tamar Yonah show
IsraelNationalRadio.com (Arutz Sheva, Channel 7)

0:00 Intro, network info, and bio of Rabbi Antelman.
"Smartest man in the world," chemist, inventor,
many patents.

2:40 Book: "To Eliminate the Opiate, Vol. 1" --
Description.

5:00 Today is the 250th Anniversary of the Cherem
(excommunication) performed by the Council of the
Four Lands.

Some impeccable source books:
Anthony Sutton: Wall Street and the Bolshevik
Revolution
Anthony Sutton: Wall Street and the Rise of Hitler

Carroll Quigley, Prof. of Foreign Relations,
Georgetown University. Clinton.
CFR = Council on Foreign Relations [arayot?!] =
Carnegie, Ford and Rockefeller.
Book "Tragedy and Hope"
Book "The Anglo-American Establishment"

7:00 Other impeccable works: Hebrew University
Professors

17th century Cossaks -Chmielnicki Massacre - 20th
Sivan annual commemoration
8:10 Council of the Four Lands (1520-1764) 30 Rabbis
(15 lay leaders, 15 full time rabbis)
9:00 People were looking for Redemption --
Shabbetai Tzvi "I am the Messiah"
Sultan: Die or Convert to Islam -- he converted.
Died 1676

10:00 Disillusionment. Secret groups. Donmeh in
Salonika

10:55 Talmud: "Messiah will come when everybody is
good or everybody is bad"
So Sabbateans would sin on purpose for example
davka eat chelev, forbidden fats.

12:10 A transformation of the Donmeh: Jacob Frank
(d. 1791) made communities Satanic.

13:00 Gershon Scholem wrote a lot about Shabetai
Tzvi. Sabbatean Studies, Hebrew U.

13:40 Adam Weisshaupt. Illuminati. French
Revolution. World conspiracy does exist.

14:40 Many good sources. "Protocols" is fiction.

15:15 Back to Frankists. Excommunication on 20
Sivan, 1756.

15:25 Four Lands' Council excommunication of
Frankists -- bastards to the tenth generation.
Forbade study of Kabbalah till 30 or 40 years old.

16:30 Frankist family trees -- First cousin of Frank
was Dobrushka -- member of Illuminati devoted to
Sabbateanism.

Non-Jews joined Illuminati.
These two groups staged the bloody French
Revolution.
Dobrushka was beheaded on the guillotine.

17:45 Revolutions have been both good and bad --
but let's analyze it from the spiritual side.
Generated Reform and Conservative Judaism,
labeled the traditional "Orthodox." Fragmented
Jewry, don't know who to trust.

18:30 Sufi shrine of Frank in Albania. Gnostic
movement.

19:50 The Assassins (Hashish). Spencer's
Encyclopedia of the Occult. Rosicrucians another
Sufi cult.

21:30 Anthony Sutton: The Bushes, Yale, Sabbatean -
Frankists - Illuminati, Skull and Crossbones,
Universities.

23:00 Part 2
Marx: "Religion is the opiate of the masses"
Rabbi Antelman's book available through Billy Jack
Dial's site BnaiNoach.com (defunct/redirected)

25:00 Frankist cult held Sabbetai to be God
Various one-world agenda groups and blocs.

27:40 Bilderbergs -- non-Jewish
27:50 The genius of the Council of Four Lands -- was
that any Jew involved in derivative organizations of
Sabbatean-Frankism is excommunicated and no
longer a Jew.
Trotsky was excommunicated.

28:25 Are there still Sabbateans today? Vol 1
published 1974. A History professor doubted it.
Volume 2 (2002) addresses it. In 1999 a Donmeh,
Ilgaz Zorlu published a book "Yes, I am a Salonikan" --
Crypto-Jew Muslims, orgies, ... No doubting.

30:50 Ataturk was a Donmeh

31:00 Callers --
Esther -- Are Sabbateans connected with forming the
Reform and Conservative Judaism?
Gershon Scholem's writings. "The Holiness of Sin"
popular article. Mitzva habaah b'Aveirah. Brandeis
family from Sabbateans. Dembitz renounced
Sabbateanism. Solomon Sheker.

35:50 William from Baltimore: CFR in Israel today?
What can we do?
Pray for the Geulah. Pick up and live in Israel, will be
the beginning of the Geulah.

37:35 Tom from Washington D.C. About Neo-Cons?

No comment (not closely relevant)

38:40 We've covered roots of the Illuminati and connection to Sabbateanism.
Symbol of Eye on pyramid on dollar Bill: Spencer: "Cult of the All-Seeing Eye."
From Egypt, Horus, Baal Peor, Bilaam - "seeing leader of his day."

40:10. Adam Weishaupt, Ingolstadt University, dominated by Jesuits
41:45 Sanhedrin Perek Chelek -- "Eilu hem sh'ein l'hem chelek l'olam haba." These are the ones who have no share in the Next World.

42:45 CFR trying to make one world government by 2010. Bush Sr. was in CFR. Arabs are a favorite party. Want complete domination of world and Plato's Republic New World Society.

44:15 Are they purposely evil? Not monolithic. Bohemian Grove are Devil Satanic.
45:00 I don't believe in dark powers. But the UN in NYC has a Meditation Room that is Sufi and paganism Avoda Zara.

Max full show [65k/10h], named 'i spy'; i go:
at the end of the day, the last decade resembles nothing so much as a huuuuge drawn out celebr.

commemor. con- & affirm. of .. the holodomor ... typical bloodmix telltale driven by 'we new, we now, we few we elbow all some- n anyhow', lower the ethaboo trashhold and have ourselves a bone to gnaw an book of grudges to pretend is a both a good claim and excellent cudgel, as well as the brakes on runaway inflation when the time comes for top down 'zwarte pieten' [musical chairs] ... as we do the running Ziorculls around whities led to slaughter [ain't that THE biblical phrase if ever there was one] over fucking inflections!!! 101 of minordiffnarc proly ... i am, as you are, talking about the region famous for all that ..

... completely overshadowing the fact it produced what scant proof there is [entire libraries lost between now awkwardly adjacent lines] for SManthan and MeeperWat memes X praxis making it to the EU as well as the far east. [ps: see ps]

What wearies on me and what prompts this heads up is the phoniness of pretending Russia Gate is based on nothing, your bread n butter staple.

..... Strictly speaking yes but what's the ultimate diff between State directed stagings and .. you know ... the pick up game [of pick off politics, an anti transparancy perversion of Jim Bell Assasination market polytrix] ... if 'most mattersome' of simpins do sum to criticalities that come down to the same thing, that is to say, manifest as indistinguishable acts??

You are basically denying a migration pattern described by Solzhenitsyn which has meanwhile acquired and wields hyperpowers unbelievable to even the staunchest of us 'which miracle will you deny?' unbelievers. That was a paraphrase of surah 55 btw.

If you wanna talk about diffs there is a major major one that chugs along, of course cause unexamined and underexposed:

toxup is fiercer but fewer and further between in east vs west .. i mean in eurasia vs europe and without the fiercely defended space there'd be some sort of reversal and/or levelin up n out?

Michael Springmann was the head of the American visa bureau in Jeddah, Saudi Arabia, in the Reagan and former Bush administrations, from September 1987 through March 1989. While stationed in Saudi Arabia, Springmann was "ordered by high level State Dept. officials to issue visas to unqualified applicants". Springmann states that these applicants were terrorist recruits of Osama Bin Laden, who were being sent to the United States in order to obtain training from the CIA.

bit of a toss up as to which of the 2 semi-semi 90s top memories ballooning into huuuge brands covers for the bigger betrayal & sacriligious pervin of the true **![undeniably GROUNDING!]** meanings of their anchorbuzz terms: 'microsoft' or 'open society'.

'open en binnenste buiten werken'

"open en binnenste buiten werken"

heeft iemand ooit geprobeerd die uitdrukking gangbaar te maken?

Het is onwaarschijnlijk dat de uitdrukking "open en binnenstebuiten werken" als een formele, gangbare uitdrukking of gezegde in het Nederlandse taalgebied is geprobeerd te introduceren.

De woorden zelf hebben duidelijke betekenissen, maar de combinatie is ongebruikelijk en klinkt eerder als een letterlijke, directe vertaling van een Engelse uitdrukking, met name "working open and inside out" of iets soortgelijks, wat in het Engels zelf ook geen standaard idioom is.

Mensen gebruiken weleens creatieve of letterlijke vertalingen in informeel taalgebruik, maar dit heeft zelden geleid tot een breed geaccepteerde, gangbare uitdrukking in het Nederlands.

Battle for the Soul of Europe

MCC Brussels - 33.2K subscribers - 1,407 views Streamed live on Dec 4, 2025

09:30 - 18:30 Ordinary Europeans are fighting back. Election by election, country by country, proud patriots and national conservatives are gaining ground. A fresh consensus is emerging, one rooted in sovereignty, strong borders and common sense. Open borders, environmental extremism, endless censorship and radical gender ideologies – all this is being rejected at the ballot box. This is the moment to land a decisive blow against establishment dogmas that have failed us for too long. ----- But make no mistake – the battle is only beginning. Terrified of the success of right-wing forces, the establishment parties are waging a war against democracy. Through the courts, the police and the European Commission, they are attempting to rob ordinary people of their voice. Bans on candidates, overturning elections and a vast machinery to control speech and media – this is just the beginning. -----

This major new event is a chance for genuine conservatives of many different political tribes to develop a new narrative, learn from each other's successes and forge common bonds as we ready

ourselves for the fight that is to come. Organised by MCC Brussels – Europe's leading alternative think tank at the frontlines of the fight against the cordon sanitaire, EU overreach and the EU's vast NGO propaganda operation – this is a unique opportunity to bring proud patriotic voices to the dark heart of the EU.

Battle for the Soul of Europe will be the most significant conservative intellectual event of the year, addressing wide-ranging issues, from the economy and migration to the abuse of lawfare and upholding the true achievements of European civilisation like culture, sovereignty, industry, tradition, religion and freedom.

If Nick Land is the Aleister Crowley of Silicon Valley, then Curtis Yarvin is its G.I. Gurdjieff.

Gurdjieff taught that most humans are asleep, "little machines" following unconscious programs. Yarvin took that logic to its darkest conclusion.

Writing under the name Mencius Moldbug, he framed America as a broken operating system, democracy as a corrupt legacy protocol, and citizens as malfunctioning hardware running the wrong software. His solution was nothing less than a total rewrite of civilization itself.

"Instead of calling someone bad, wrong or evil, see them for what they often truly are: limited. A person can only act from the level of consciousness they stand upon. They cannot reach higher than their awareness allows." Machieveli
-----The limited cannot control their impulses or beliefs. An Israeli quoting nonsensical scriptures to justify stealing land and murdering whole families is like a dog that shit on the floor.
-----They are too limited to change. Hate what they do but understand what they are. A person defining themselves by mythology cannot be brought to see reality. The Jew is limited by rooting himself to lies. His identity requires self deception. Any lie that justifies greed is accepted for Jewish morality is based on whatever they can get away with.
-----You need to recognize this and understand their nature. We do not put scorpions in cribs and hope they are one of the good ones.
-----A person who would mutilate the penis of his own child, is not in control of his own mind and lacks innate empathy. They are limited genetically from natural compassion found in everyone else.
-----An immoral religion will be rejected by moral people. Over time the remainder are the immoral and the ones most susceptible to lies. Their offspring amplify the traits require to sustain such insanity as Yahweh. The end result is israel. A nation of floor shifting dogs who can murder and still play the victim.
-----Such people cannot be allowed to have power. But they were and now we have genocide

Charlie's Fired Predecessor Has Deep Atlantic Council Times

24:05 -- I got to tell you that advisory board was putting people into the Air Force into certain areas like surveillance, like what's the next generation of our surveillance planes are going to be like the ISR planes. These I these Atlantic Council people that we've been talking about are putting people who they want to get technology for Israel into Fort Wuka. It's a exfiltration that we've been talking about for nine years with Danny Rothschild. This person is sort of a Danny Rothschild agent on the board, right? and she has been very critical or a very important component into getting people into Fort Wuka and other uh Air Force labs like Wright Patterson Air Force Base, the advanced research lab at Air at Wright Patterson in missile and space technology, space force included. We've been covering this for nine years with Danny Rothchild, right? Oh, okay. Well, what's her name? What's her name? So, we can follow and check all this up. Well, her name is Ben Yehuda, right? Jenna Ben Yehuda. Ben Yehuda. Ben Yehuda. H. Wait a minute. Wait a minute. Hold it. Ben Yehuda. I've heard of Ben Yehuda before. Right. Um, now she wouldn't be involved with ISR planes, would she? Like intelligence, surveillance, and reconnaissance. Yeah, she would. Yeah, she would. the same kind of Artemis system that they currently use for ISR transitioning to a new system called Hades. Um, I wonder if the plane that circled that left El Paso and a military plane that circled around Charlie Kirk's death that left El Paso. I wonder if that was a Hades plane. Yeah, it was. I wonder if these two Egyptian planes that were following all around with Charlie Kirk. I wonder if they were Hades planes because that's an Air Force experimental program that we're currently in transition for ISR. Yeah, they are. Who would have been the person recommending that people to work on those programs? Oh, Ben Yehuda. Ben Yehuda would have been H. Where were the people getting their encrypted communications? Where was that ISR data going? After they collected all the faces from all the um Charlie Kirk events and Trump events and JD Vance events, where was all the facial recognition that they captured? Where was all the uh phone information they captured going? Where was all the uh where was all the license plates and all the other metadata of everyone -----26:53----- attending these events going? Fort Wuka.

----- Fort Huachuca is a United States Army installation in Cochise County in southeast Arizona, approximately 15 miles (24 km) north of the border with Mexico and at the northern end of the Huachuca Mountains, adjacent to the town of Sierra Vista.

----- Fort Huachuca, constructed in 1877, was one of a chain of forts established to guard southern Arizona against the Chiricahua Apaches, led by Geronimo. It was here that the Army organized an elite strike force that chased Geronimo and his followers through Mexico's Sierra Madre during the summer of 1886, compelling their surrender.

Recent revelations about its creator, L. "Lyman Frank Baum (1856-1919) advocated the extermination of the American Indian in his 1899 fantasy, The Wonderful Wizard of Oz. Baum was an Irish nationalist newspaper editor, a former resident of Aberdeen in the old Dakota Indian territory.

Two of Frank Baum's descendants apologize for his racism
The issue is about two editorials Baum wrote in his Saturday Pioneer newspaper that he published during the three years he lived in Aberdeen during the 1890s. His commentary on Sitting Bull and Wounded Knee, written in 1890 and 1891, called for the extermination of Native Americans.

<https://diogenesii.wordpress.com/wp-content/uploads/2012/12/baum.pdf>
1890 was also the year of one of the darkest passages in the troubled history of relations between Native Americans and the expanding white population. On the afternoon of December 28, 1890, units of the U.S. Seventh Cavalry captured a group of Minneconjou Sioux Indians at Wounded Knee Creek in southwestern South Dakota.

L. Frank Baum Advocated Extermination Of Native Americans

October 27, 2010 -- By JJ Sutherland

illustration: 1876 engraving of Chief Sitting Bull --- Ralf Hettler -----Finding out that childhood heroes have feet of clay is nothing new. Sometimes it can actually be reassuring in an odd way, that they too are human. But then you stumble across something like this and you have to completely re-evaluate everything you thought you know about someone.

on the contrary ... it's the little 'somethings' that can be generalized furthest into nemeses plethorix and common man scourges by the specialists of thievery who dangle their 'takings' as bait or tweak it with mirror eyedeals, dope'm w droplets, mist'm, trac'm, curse'm, kack'm

you do not get to non toxic crownage without sane treatment of feet first and a very very traditional, all the more deserving of reverence protection respect and awe .. is clay duuuuuuuuuuh.
grounding101 /

L. Frank Baum, before he wrote The Wonderful Wizard of Oz ran a newspaper in South Dakota. This was in the early 1890's during the Indian Wars. When Baum heard of the killing of Sitting Bull and the massacre at Wounded Knee, he wrote editorials calling for killing each and every last Native American.

From his Sitting Bull editorial:

The proud spirit of the original owners of these vast prairies inherited through centuries of fierce and bloody wars for their possession, lingered last in the bosom of Sitting Bull. With his fall the nobility of the Redskin is extinguished, and what few are left are a pack of whining curs who lick the hand that smites them. The Whites, by law of conquest, by justice of civilization, are masters of the American continent, and the best safety of the frontier settlements will be secured by the total annihilation of the few remaining Indians. Why not annihilation? Their glory has fled, their spirit broken, their manhood effaced; better that they die than live the miserable wretches that they are.

Egads. It likely wasn't an isolated view at the time, but to have it stated so baldly by a beloved writer of children's books is shocking.

And um they were like, "Hey, like yeah, she was like making dinner with like organizing or making -- 1:26:07 -- dinner with Charlie. Like we're going to send you a message of like between her and Charlie speaking." And I was like, "Great, amazing. I will literally update Twitter right now and say like Erica was making dinner with Charlie." And they send me a message, but the contact was blacked out. So I went back obviously and I was like, "Hey, like the contact's blacked out. Like I don't this could be a message between like me and George for all I know." And I was like, "Do you just mind like just sending like I know Charlie's number obviously, so just like you know, show me the contact." Um, and they were like, "Um, oh, uh, we blocked it out because this it's like a pet, I don't know, like a nickname that she has for Charlie or whatever, and she just didn't want you to see it." And I was like, "Okay, well, you can just like change the contact name and just send me like, you know, just send me a video of you opening it so I can see Charlie's number and tell my audience like this is confidently a text chain between Charlie and Erica." And then um they just said, "Look, it's Sunday." Uh I think it was like 1:00 or something. And she's busy with the kids, but we'll we'll get you that.

STEPHEN BLOOM (Interview #16) His investigation into the Chabad Lubavitcher group in Postville, Iowa

Is It Antisemitic to Tell the Truth?

6.5K views - 15 hours ago

This interview (the 16th of over 60, and many more to

come with mostly other scholars) was conducted in 2010. Professor Bloom (who is Jewish) was on the journalism department faculty at the University of Iowa. (He is now apparently retired). The subject here is his book, **POSTVILLE: A CLASH OF CULTURES IN HEARTLAND AMERICA**. (0.2% of Iowa's population is Jewish, but there were at the time more rabbis per capita in Postville, Iowa, than any other town in America.) At core, Bloom's volume was an indictment of the Jewish ultra-Orthodox Chabad Lubavitcher community that had moved into Postville, taken over a slaughterhouse, and its negative influence in that rural town. As Bloom notes, the mainstream Jewish community media avoided reviewing his book.

The implications of this Postville volume, even today, are many. Listen to professor Bloom's testimony here and then consider that Donald Trump's daughter Ivanka has married a Jewish man, Jared Kushner. She converted to Judaism, and -- according to news reports -- the couple attend a Washington DC Chabad Lubavitcher synagogue. Trump has entertained various Chabad leaders in the Oval Office and Chabad rabbis -- particularly Berel Lazar -- are reportedly even influential to Vladimir Putin in Russia. Easily researched online, the Kushner family has donated sizeable funds to various Chabad projects, including in Israel, Florida, New Jersey, and other sites. After a Chabad rabbi was murdered in 2024 in the United Arab Emirates, Jared Kushner announced that he and Ivanka would donate a million dollars to a Chabad organization in that country.

Shalom Rubashkin, the head of the slaughterhouse and local Chabad community in Postville, and central figure in professor Bloom's reporting, was convicted in 2009 and went to prison for numerous crimes (86 counts of mail fraud, bank fraud, wire fraud, and money laundering. These don't include numerous other accusations regarding animal cruelty, food safety, environmental safety, child labor, and exploiting undocumented immigrants.)

Rubashkin was sentenced to 27 years in prison. With some bipartisan support, Donald Trump commuted his sentence in 2017, after Rubashkin served 8 years.

IMPORTANT QUESTION after viewing this interview or reading Professor Bloom's book: To what degree do the Chabad Lubavitchers in Postville, Iowa, represent traditional (particularly Eastern European) Jewish views of the non-Jewish world around them? AND, crucially, to what degree has this version of self-segregating Jewish Orthodoxy always enhanced and encouraged what is known today as --antisemitism--? Reasonable, ethical questions.

Connecting the dots: Trump keeps pardoning healthcare fraudsters linked to this one pro-Israel sect

The president has made a mockery of his MAHA agenda by handing out clemency to healthcare execs responsible for costly and sometimes deadly criminal schemes.

See if you can spot a pattern:

----- Philip Esformes: Nursing home mogul behind what the DoJ says was the --largest health care fraud scheme-- ever prosecuted, convicted in 2019 on a \$1.3B fraud, bribery and money laundering scheme, including the drugging of patients with oxycontin and fentanyl to extend their stay at his facilities.

Got 20 years, but pardoned by Trump in late 2020 on the recommendation of Jared Kushner and the Chabad-Lubavitch movement-linked Aleph Institute. Rearrested for domestic violence in late 2024. Case dropped a month later.

----- Sholam Weiss: Racketeer, money launderer and wire fraudster who siphoned \$450M from the National Heritage Life Insurance Company in the 90s. Slapped with an 845-year prison sentence, which he tried to evade by fleeing to Europe. Pardoned by Trump in 2021. Also linked to Chabad.

-----Salomon Melgen: Got 17 years in prison in 2017 over a \$42M fraud scheme involving unnecessary eye surgeries using Medicare. Sentence commuted by Trump in 2021, even though Melgen was a Democrat megadonor.

Pardon lobbied for by the Aleph Institute.

----- Daniela Gozes-Wagner: convicted on a \$50M fraud scheme in 2017, sentenced to 10 years. Trump commuted her sentence in 2020. Why? You guessed it, Aleph Institute lobbying.

----- Eliyahu Weinstein: Convicted to 24 years for real estate fraud targeting his own Orthodox Jewish community in Lakewood, NJ. Sentence commuted by Trump in 2021. Weinstein immediately returned to fraud, this time involving medical supplies. Handed a new 37-year sentence in November 2025. Will he be freed again? Watch this space.

WaPo says 27 of the 238 people granted clemency by Trump 1.0 were linked to the Aleph Institute, its Tzedek Association sister agency, and other lobbyists working with them.

--- At least Biden had the autopen. What's Trump's excuse?

Undersecretary Brad Hansell's DOGE-style review of Ft Huachuca operations was interrupted by --Mitch Snow--. Did Undersecretary Harsell call a DOGE-style meeting for the morning of September 9th at Ft Huachuca? Did Mitch blow up that DOGE meeting? What is Ft. Huachuca hiding? Drug running with drones again? Would Erika Kirk's mother's contracts for flying drones across the US to Mexico and back for AZ Tech since 2003 have been kicked out in a DOGE Audit? Is that why DOGE Suicide Bomber Mitch showed up at exactly the same time?

Zionism stole the idea of the Temple
The Temple or Mosque of Jerusalem
What is the secret of the Philosophers Stone?
Why are birth rates going down?
We can let politicians and billionaires build a New World Order
Or we can take the destiny of the Temple into our hands
The idea of the Universal Temple was to bring Christianity and Islam and Judaism together and goes back to the days of the OTTOMAN NEW ORDER known as Nizam-i Cedid in the 19th century
The endless global wars caused by religion led to nothing to but death and rape and destruction and suffering
It led to the rise of the NEW NOBILITY
The idea for the new Global Temple - Mosque It was stolen by the Zionists and the New World Order and is rejected by many Orthodox Jews and Muslims and Christians. The idea is much odler and had nothing to do with the Zionists. They stole the idea, and many people now think that it is their idea. It is going to lead to many more wars and much more hatred and suffering. Many politicians and businessmen wish to use Artificial Intelligence and pretend that is the Shekinah in a new Global Temple. But the original idea was to create a universal Temple of Love for all mankind
There can be wars for many more years and more refugees and more problems, or the people of the world can unite in common principles and take the destiny of the Temple and the destiny of the New World into their own hands.

Raised in a conservative, fundamentalist Christian environment, Monte Mader later publicly deconstructed those beliefs and now focuses on challenging dogma and exploring cultural and historical topics. Her home life was filled with being forced to memorize Bible verses or risk extreme corporal punishment. Her mom left the family of 6 children early in Monte's childhood and was replaced by a sadistic stepmother who kept her and her brother in the basement for 2 years along with other

harsh punishment.

Even though Monte was being bred to be a housewife with strict gender roles, once her father recognized her off-the-charts intelligence, he quickly switched gears and wanted her to become a Supreme Court Justice to enact and even overturn policy for the agenda of extreme fundamentalist ideology. After a tumultuous engagement that ended in betrayal and disaster, Monte continued to deconstruct when she realized she had been lied to about what the Bible actually says from a Scholastic POV. Now she uses her platform with millions of followers to debate against those who try to use the Bible's words to harm and oppress others.

Monte Mader: I Lost So Much Life Hating Myselfâ€”How a Former Christian Nationalist Broke Free
StyleLikeU and Monte Mader ---- 57,079 views Nov 21, 2025 LOS ANGELES --- â€”@MonteMaderâ€” a deconstructed and liberated former alt-right Christian nationalist turned progressive culture critic, rips the veil off patriarchal and religious conditioning from inside the system that once defined her. Shaped by purity culture and taught that her worth depended on staying small, obedient, and quite literally hating herself, Monte has transformed into a voice for truth, freedom, and self-reclamation â€” becoming one of the leading voices in our generation's cultural shift toward liberation. Tune in to see how embracing her body, her sexuality, and her

differences became the path to her power.

We hope you are as ecstatic as we are for the long-awaited return of What's Underneath â€” StyleLikeU's groundbreaking series where undressing becomes a metaphor for shedding the layers of conditioning around who we've been told to be and provides an opportunity to step into our truth.

In a cultural moment when freedom of expression is being challenged and old beauty ideals are resurfacing, What's Underneath returns as a space for honesty, catharsis, and collective liberation.

L. Rickels -- Political Science, Psychology == 2008

The author rereads the transmission of adaptation of psychoanalysis to untenable politics (in the case, specifically, of the so-called Lobo-Cabernite Affair in Brazil) as the ongoing predicament of "not seeing" the historical settings of psychoanalysis in its at once indefensible and aggrandized state as "greater psychoanalysis" (Freud plus every brand of new analysis or psychotherapy that takes its departure from his original work). From within this perspective,

politics must be charted alongside psychosis in that outer space of psychic reality that draws psychoanalytic work onward. The psychotic is not a system error nor is the ghost beholden to the systematic generation of secrecy (among other ego idylls). The ghost is, like the psychotic, other. The author excavates John Rittmeister's readings (from 1937 to 1943) of the borderline in politics as in psychosis along which psychoanalysis expands its transferential range of legibility and analysis as the ghost writing or the unread in this case of the "Boys from Brazil."

And and the worst part of that thing is he shot her twice from the driver's side window. Clearly, you --33:42 — cannot justify the second and third shot at all. The first one, you can say even if she was turning right, he thought she was coming at him. Okay, there's an argument there. But the second and third shot, there's no there's no justification for that. Oh, he panicked something. It just Yeah, I see that lady. I saw her in the you going beep beep beep and just being a ass wipe. Uh and I'm like I'd want to shoot her, but that doesn't mean I would do it, you know? Like I'd want to beat the fuck out of her, but I'm not going to. Lots of people I'd like to punch, but I, you know, an adult. I don't just walk up and hit people. I know. And I share their frustration. It's this stupid woman blocking them with her car and beep beep beep beep and just being annoying as hell and plain stupid and you just want to shoot her in the face. And this guy actually did. He's like, "Oh, but she made contact like, yeah, if you look at his feet, both feet have cleared the car." He's leaning forward like 45 degrees with his arm out so he could touch the hood and go, "Oh, look." And then bang, bang, bang, bang. He's already got his hand like going down, phone in his hand, hand --34:53 ready, leaning forward to tap the car and then pull the gun out to shoot her. He wanted to kill her in my opinion.

Palistin: Philistines of the North or Something Else Entirely? ----- Dig. = 31.8K subscribers

20,595 views Jan 16, 2026

The kingdom of Palistin (also Walistin) appears in early Iron Age inscriptions from northern Syria, raising long-standing questions about its possible relationship to the Philistines of the southern Levant and the broader Sea Peoples phenomenon. Centered in the Amuq Valley with its capital at Tel Tayinat, Palistin is known from monumental Luwian inscriptions, Assyrian sources, and archaeological evidence spanning the 11thâ€”9th centuries BCE.

Here we examine the political history of Palistin, from King Taita to its incorporation into the Assyrian Empire, and evaluates whether similarities in name reflect shared origins, later linguistic developments, or unrelated traditions. By comparing northern Syria with Philistine centers in the southern Levant, the discussion explores migration, material culture, and identity formation in the aftermath of the Late Bronze Age collapse.

The relationship between Palistin and the Philistines reminds me of Bulgaria and Volga Bulgaria. Both names came from a single people - the Bulgars, but when the Bulgars split and migrated to different areas they integrated with the local populations and developed very different cultures from each other.

Lulz. Imagine thinking youre rich with your purse of glimmering disks. The grid goes down. There are ni more stores. No more places to convert you useless disks into the fiat currency you were trying to work around. "Excuse me good sir! Id like to buy a can of soup!" You offer a gold coin formerly worth 5k\$. â€‹@jameswallace4794 that's assuming people will still use fiat currency in a massive collapse. Historically, people traded gold and silver for purchases. It is more trustworthy than paper. Also, anyone can be eaten regardless of what kind of money is in their hand. Lol

Are Israeli war vets behind Patagonia wildfires?

The Grayzone = 523K subscribers ---- 10020 Views in 5 hours

Jan 21, 2026 #TheGrayzone

It's a scandalous story that has reverberated across social media and triggered protests in Argentina, but which mainstream media in South and North America are studiously ignoring:

Israelis - who are mostly veteran soldiers and sometimes accused war criminals - keep getting caught breaking Patagonia's strict rules against starting fires. And now the region is burning.

----- Who started the fires, and why?

The Grayzone's Oscar Leon interviewed Sebastian Salgado, an independent Argentine journalist who has investigated the issue from the ground. -----

According to Salgado, the flamboyantly pro-Israel Argentinian President Javier Milei is encouraging foreigners to buy up land in Patagonia "especially if the land has been burned by wildfires" while slashing fire fighting budgets. Meanwhile, a local governor with close ties to Israel is baselessly blaming the indigenous Mapuche people for the fires.

Salgado explains how the Zionist movement has cast longing eyes on Patagonia since the 19th century, and raises questions about whether a dark geopolitical agenda lurks behind Milei's fire sale of the naturally beautiful, strategically significant region.

Watch the first part of our series, "Why are Israeli war criminals hiding out in Patagonia," here:

2i think putting a positive an specially not too fast a spin on or at least next to this explicit a block will not only help it go further but up the chances of it ripening into imperative

thus far we're just redoin an old bolsh to neocon trajectory rerun or a return run with the signs n shingles reversed, mirrored and upside down ... this time it's nazis to the left and zionazis to the right but the dispersal, the blinding habit formation that causes family tradition that causes the residualusive 'nozseein' that causes the shock, the bane the curse, the disaster ... yet another white on white clash succesfully funneled funded and sparked. The Pale can give, the Pale can take it .. but, back to my imperative as i was sayin .. or repieting rather

<https://www.merriam-webster.com/dictionary/welling>
wellen Etymology -- Noun
Middle English welle, wille "spring of water, pool formed by a spring, pit sunk into the earth to reach water," going back to Old English wāġle (Anglian), wiell, wielle (West Saxon, later wille, wylle), going back to a Germanic base *waln(j)- (also *walj-?) with varying stem formations (whence also Old Frisian walla "spring, source," Middle Dutch wal, walle "a seething, boiling heat, spring or river of seething water") and with e-grade ablaut Old High German wella "wave, tide," Old Icelandic vella "boiling, bubbling mass," all nominal derivatives from the base of Germanic *walla- "to well up, seethe, bubble" â€” more at well entry 2

Note: Comparable nominal formations from Indo-European *uġel(H)- "seethe, bubble" with zero-grade ablaut are Old Church Slavic vlĀna "wave," Russian volnĀ; (< *uġlġH-neh2), Lithuanian vilnĀ-s "wave" (< *uġlġH-ni-), Sanskrit ĀrmĀ- "wave" (< *uġlġH-mi-).

Verb -- Middle English wellen "to rise to the surface, bubble up, boil, seethe," probably in part verbal derivative of welle "spring of water, well entry 1," in part adaptation of the transitive verb wellen "to boil, curdle, melt (metal), refine," going back to Old English wellan, wyllan (< *wiellan) "to cause to boil," probably going back to Germanic *wall(j)an- (whence also Middle Dutch &

Middle High German wellen "to make boil," Old Icelandic vella), causative from *wallan- "to well up, seethe, bubble," Class VII strong verb (whence Old English weallan "to boil, bubble up," Old Frisian walla, Old Saxon wallan "to blaze, boil up, well up," Old High German, "to boil up, well up"), a Germanic verbal base of uncertain origin, seen also with a zero-grade present without gemination in Gothic wulan "to seethe, spread (of an ulcer)"

Note: Both the Middle English Dictionary and the Oxford English Dictionary, third edition (OED), treat the two Middle English verbs wellen as simply the same verb; compare, however, J. de Vries (Nederlands Etymologisch Woordenboek), who treats Dutch wellen "to bubble up" (opborrelen) and wellen "to make boil, hammer white-hot metal together" (doen koken, gloeiende metalen aaneenhameren) in separate articles. The OED asserts that there is a range of dialect attestation of the verb (wāġllan, wellan, willan, wyllan), apparently on the basis of the few forms given in the citations (the imperatives wel, wyl and wāġl in recipes): "In Old English the verb shows the expected reflex of the i-mutation of early Old English Āġl (West Germanic a) before ll, depending on dialect." But if this statement is based on a reconstruction of the immediate pre-Old English form and inflection of the verb, or its West Germanic predecessor, no such reconstruction is given. The etymology itself merely lists a group of supposed Germanic cognates, summarized by the statement "a causative formation < the same Germanic base as wall v.1 [i.e., Old English weallan]." â€” In addition to *wallan-, Germanic has an apparent e-grade strong verb *wellan-, seen in Old Saxon and Old High German biwellan "to stain, besmirch," Old Icelandic vella "to well over, boil," and probably Old English wollentĀ"ar "with streaming tears." Along with a series of nominal

formations outside Germanic based on a zero-grade *uīl̥iH- (see note at well entry 1), the Germanic verbs would lead to an Indo-European base *uīl̥el(H)- "seethe, bubble." Some have seen this etymon as identical with a homonymous base meaning "to roll" (see welter entry 1), the view of H. Rix, et al. (Lexikon der indogermanischen Verben, 2. Auflage, Wiesbaden, 2001). E. Seebold, on the other hand (Vergleichendes und etymologisches WÄrtterbuch der germanischen starken Verben, Mouton, 1970, p. 552) thinks the connection in sense is not so easily explained ("Wie diese Bedeutungsvielfalt zu erklären ist, bleibt unklar"; likewise Kluge-Seebold, 22. Auflage, s.v. wallen). Seebold points to the proximity of form and identical meaning of Lithuanian vārdas, vārta "to boil, seethe," Old Church Slavic vārāti.

ICE is trained by the Israeli Defence Forces (IDF) and other Israeli security entities - Multiple reports show

1,200 top U.S. officials (including from ICE) traveling to Israel or hosting Israeli experts since 2003 - deadlyexchange.org

Yes, U.S. Immigration and Customs Enforcement (ICE) has participated in training programs with the Israeli Defense Forces (IDF) and other Israeli security entities, and it maintains an office in Israel.

The Jewish Institute for National Security Affairs (JINSA) Law Enforcement Exchange Program (LEEP), started in 2002, sending U.S. delegations (including ICE) to Israel annually for tactical sharing - deadlyexchange.org

Here's a breakdown based on available information:

Training with the IDF Since the early 2000s, thousands of ICE officers (along with other U.S. law enforcement personnel) have engaged in training exchanges with Israeli military and police forces, which include the IDF. - deadlyexchange.org

Other programs like the Georgia International Law Enforcement Exchange (GILEE) and American Jewish Committee exchanges, which have included ICE participants learning from Israeli military strategies - deadlyexchange.org

These programs focus on areas like counterterrorism tactics, surveillance, threat detection, and inter-agency cooperation - deadlyexchange.org

These exchanges have been criticized for importing tactics associated with occupation and control, such as militarized checkpoints, arbitrary detentions, and surveillance, which some reports link to ICE's operations in the U.S. - scalawagmagazine.org

Specific initiatives include:

The Anti-Defamation League's (ADL) National Counterterrorism Seminar (NCTS) and Advanced Training School (ATS), which have involved over

Additionally, technology sharing (e.g., via companies like Palantir, Elbit, and Paragon) enhances these connections, with tools used by both ICE and the IDF for targeting and monitoring - scalawagmagazine.org

22.6K ... In this episode we get into how propaganda proliferation manufactures prescriptive group narratives and how quickly those narratives override facts, procedure, and basic moral consistency. We use COINTELPRO as the historical template for narrative steering, fragmentation, and 'managed conflict,' then map that logic onto modern incentive structures and media timing. As a case study, we break down the Alex Pretti shooting and how the public response split into ideological camps almost instantly, less 'what happened?' and more 'what does my side need this to mean?' We also dig into Cam Higby's reporting about Minneapolis Signal chats, complete with defined roles, training slides, plate databases, and SALUTE style reporting, arguing it looks less like spontaneous activism and more like an insurgency.

Underneath it all is the same ugly layer: money, influence, and protection networks that thrive when the public is herded into competing moral stories instead of demanding accountability.

Emails from July 2011 show that Jeffrey Epstein and an associate named Greg Brown discussed plans to extort Libyan officials and seize state assets under the pretext of helping rebuild the country, with involvement from former MI6 and Mossad.
The correspondence took place during Libya's so-called "civil war", weeks before Muammar Gaddafi was removed from power, indicating the plans were devised while the regime was still in control.
First they eliminate the leadership, then they dismantle the state, and once the ruins are complete, they return under the banner of "reconstruction" to plunder what remains. This is 101 cartel-style extraction. Along the way, they recruit the media to manufacture public approval and, worse, public sympathy, turning destruction into a moral spectacle and looting into a humanitarian cause.

"This Looks Exactly Like A Massive Cover-Up" | Whitney Webb -- Investigative Insights TV == 46.3K subscribers
Feb 4, 2026 -- Check out Whitney Webb's bestselling book exposing the criminal rise of Jeffrey Epstein (One Nation Under Blackmail): <https://amzn.to/4kcNCdI>
Credit to The Corbett Report for their great interview with Whitney Webb. ---- This video challenges the sanitized narrative surrounding Jeffrey Epstein by arguing that his real power never lay solely in sexual blackmail, but in finance, real estate, and a shadow form of philanthropy that blurred the line between investment, laundering, and influence-peddling. Far from being a peripheral figure, Epstein is presented here as a central operator in networks linking intelligence agencies, organized crime, elite philanthropy, and major corporate players, including Microsoft and figures in U.S. politics. The discussion reframes Epstein not as an aberration, but as a representative of a system that deliberately narrows public attention to scandalous but contained crimes, while ignoring the deeper financial machinery that enabled his rise and protected his network.

At the center of this analysis is the claim that Epstein pioneered what is now marketed as "impact investing," a model that cloaks financial engineering and capital control in the language of charity. This helps explain why figures like Bill Gates may have been interested in Epstein long before their publicly acknowledged meetings, and why media scrutiny remains strikingly selective. By tracing Epstein's early identification as a property developer, his entanglements in Manhattan and Palm Beach real estate, his proximity to Donald Trump, Leslie Wexner, and Colony Capital, and his ties to the Maxwell family's intelligence-linked tech ventures, the video argues that real estate and philanthropy functioned as tools for laundering money, influence, and legitimacy. The implications are unsettling: the Epstein network did not collapse with his arrest or death, and the economic and political crises unfolding today may have roots in these same covert arrangements, decades in the making.

Why the Elite Practice the Religion of Sin | Prof. Jiang Xueqin -- Steel and Strategy -----4.12K subscribers
19,663 views Feb 2, 2026

This video explores a provocative and deeply controversial interpretation of Jacob Frank and Frankism as presented by Professor Jiang Xueqin, framing the movement not as a marginal historical curiosity but as a radical philosophy that allegedly shaped modern power structures. The discussion centers on Frankism's inversion of religious morality, arguing that transgression, taboo-breaking, and deliberate sin were viewed as tools for accessing deeper knowledge, accelerating history, and seizing worldly power rather than awaiting divine redemption. Within this framework, faith is no longer defined by obedience or belief alone, but by the willingness to destroy social and moral boundaries in pursuit of material and intellectual supremacy.

Professor Jiang situates Frankism within a broader narrative about secrecy, resilience, and elite cohesion, emphasizing how closed networks, ritualized transgression, and shared guilt can function as binding mechanisms for long-lasting organizations. He connects these ideas to themes of accelerationism, modernity, and cultural rebellion, drawing parallels to literature, philosophy, and the recurring motif of knowledge gained through forbidden acts. Whether one views these claims as historical analysis, speculative interpretation, or ideological critique, the video challenges viewers to confront unsettling questions about power, belief, and the philosophical roots of transgression in modern Western culture. 27s video of israel spraying glyphosate on south lebanon farmland

They have ZERO reason to keep this guy alive and risk a jail break in with lol a body double. This isn't the movies.

He had too much heat. When an asset had been burned they becomes a liability. When that happens and there is a threat of a plea bargain, they will kill you just as they killed Robert Maxwell

Dr Michael Baden, is a friend of Larry Johnson who i interview all the time. He saw the body as did Epsteins own brother and said he was murdered by strangulation

they did not drag a corpse of a 66 year old look alike and plant it in the prison
And hire a bunch of actors to pretend like they worked on him then pay off a medical examiner to look at a different body and say it was suicide yet leave injuries on body #2 consistent with murder and also take photographs of that body that look just like a dead epstein
Then for no reason at all have his brother order a second autopsy (why do that if its all a conspiracy) and the second autopsy contradicts the official story because the new pathologist found a broken bone in his neck and ruled it murder.

Jewish movie producers are having a sigh of relief after the Epstein file partial release. "Finally its not just us molesting children, it's Jewish financiers and politicians too"

The Thornhill and Palmer Affair: When Evolutionary Biology Challenged Rape Orthodoxy

Quillette --- 89.8K subscribers --- 7599x

Feb 5, 2026 Quillette Narrated

In the late 1990s, biologist Randy Thornhill and anthropologist Craig Palmer found themselves at the centre of an intense academic controversy. Their research, which applied evolutionary biology to human behaviour, provoked widespread criticism and institutional backlash across universities, media, and publishing.

This video examines what became known as "the Thornhill and Palmer affair," tracing how a scientific dispute escalated into a moral and professional crisis. It explores the pressures placed on researchers whose work challenges prevailing assumptions, the consequences for open inquiry, and the broader implications for academic freedom.

Read and presented by Zoe Booth.

Christianity is based on beleif

Islam is based on belief

Judaism is based on blood

It is racism camouflaged as religion. Why does a Jew care that I point out they are a Jew? They are who adopted a self alienating cult that divided the world in to Jew and Gentile. Many of these people do engage in ethnic neopotism. And the self proclaimed Jewish State is genocidal and does foster supremacy.

The "atheist" Jew that still believes in the mythological history of King David and King Solomon, sounds like a person saying they don't believe in Harry Potter but they still believe in Hogwarts.

At the end of the day Judaism is nothing but a religion of othering, it is not a magic garden creation story or Noah's Ark or any of those fairytales. It is a cult of the bloodline of Jacob with instructions to conquer land. That is its primary function and they are doing it too. Palestinians are murdered daily.

Oh but so and so doesn't believe that. Then why call yourself a Jew if you are not religious? Because it is inherited? So it is a bloodline? Then you do believe that.
No one has to be a jew. Its a choice

Ryan Dawson: Above is the video where Isaac Kappy called out Gabe Hoffman and his network for infiltrating and running ops on patriots exposing elite pedophiles.

Gabe is a hedge fund manager who did the An Open Secret documentary. He runs a limited hangout exposing certain pedophiles and/or sex traffickers while he protects bigger fish like Rachel Chandler.

What Gabe and literally so many of these bad actors have done to me â€” there's been dozens â€” is they will befriend me and pretend they're an ally to me for sometimes years.

Some of them have offered me money or tried to do projects with me and I've always said NO because I had a bad gut feeling about these people & knew it was a ploy to control me.

After maybe a year, or in some cases after many years go by, if they aren't successful in getting me to stick with a certain narrative AKA THEIR NARRATIVE, they start harassing, bullying & gaslighting me publicly on social media and/or privately via phone calls, texts, e-mails and even sometimes in person including in very hostile ways. I can't emphasize enough how incredibly awful some of these monsters have treated me.

Now look at his public tweet Gabe made about me in 2018 stating I'm â€œawesomeâ€? and he's so grateful for my help and support.

Fast forward to a year and a half later, I publicly talked about how I was getting targeted and harassed badly daily after Jeffrey Epstein's arrest in my own home including a break-in and strangers pounding on my door in the middle of the night among other horrific things.

They terrorized me so bad I had to move out of a home I loved.

I spoke about this publicly and Gabe's response to my targeted harassment was to slander me as paranoid, mentally ill and claim I'm in a cult because I followed Q.

I have endured nonstop bullshit like this, similar to what Charlie Kirk dealt with, for 9 years now including from many other well-known MAGA influencers who are fake ass snakes!

Isaac Kappy was correct to say in the above videoâ€” these are really bad people and the person Isaac said they tried to set up who you know and love was ME!

Let the world beware.

“Israeli Society Has Become Completely Genocidal” - B'Tselem Head Yuli Novak
Zeteo --- 102K views - 8 days ago

In this latest episode of Beyond Israelism, Simone Zimmerman sits down with Yuli Novak, Executive Director of the Israeli human rights group B'Tselem, and one of the most uncompromising dissident voices within Israel. Yuli reflects on her journey from an upbringing shaped by patriotism and belief in Israeli democracy to a painful reckoning with what she now calls an apartheid regime “and with the conditions that enabled mass complicity with genocide.

Yuli revisits her years leading Breaking the Silence “a group of former Israeli soldiers that documented abuses under occupation “which became the target of an all-out smear campaign involving

government officials, mainstream media, legal harassment, and infiltration by right-wing groups. Today, as head of B'Tselem, Yuli explains why the organization chose to name Israel's actions in Gaza as genocide in its report "Our Genocide".

Beyond Israelism with Simone Zimmerman is a provocative new video podcast series from Tikkun Olam Productions, the team behind the viral and award-winning 2023 film Israelism. In this series, Simone hosts bold and inspiring conversations that face, head on, the growing global reckoning with Zionism, the debates over Jewish identity, and the urgent struggle for Palestinian freedom.

DESCRIPTION: Exocapitalism is the idea that capitalism does not belong to humans. The titular book (Becoming Press, 2025) and this accompanying Seminar spring from a dissatisfaction with the sameness of Marxian critical social theory. This theoretical lineage appears to be poisoned by a Marvel Cinematic Universe approach to storytelling when it comes to economics: capitalism is almost always a powerful, demonic, one-dimensional Big Bad against which the accumulated forces of dignified human laborers engage in heroic, planetary-scale battle. The Seminar Instructors (authors Marek Poliks and Roberto Alonso Trillo) push this tired metaphor to its breaking point. What if capitalism is so univocal as to be actually transcendental? What if it cohabits within its share of the Empyrean with things like computation or mathematics? What if capitalism can happen on anything, anywhere, without us?

At the core of exocapitalism is the logical kernel of arbitrage, the burbling contingencies of price and value as buried exploits in simple temporal deferral. Poliks and Trillo collapse tens of thousands of years of human economic activity into this kernel, even labor, which in exocapitalism is strictly and simply the injection of manufactured volatility into a held asset. But labor itself, let alone the simple flows of commodity exchange, is insufficiently volatile for exocapitalism's hyperfertile scalarity. It is too bound to fixed costs and predictable dependencies to sustain the attention of exocapitalist flows. Instead, exocapitalism treats the entire terrestrial condition as a hyperdimensional random number generator upon which to wage and hedge controlled bets. Yet even this is insufficient. More dimensions, more abstractions, and greater differentials appear with greater and greater velocity. The human is left to consider what happens when this entire process and its operational mechanics leave us behind entirely.

Session 1, Retcon: If arbitrage is the processual unit of exocapitalism, we can build a lineage of authentic capitalisms far into the past (and far beyond Marx's blind spots outside of Europe). We start with currency speculation in 5th-century BCE Persia, Jiaozi paper money schemes in 11th-century southwest China, the famous cowrie-shell economy in the Maldives and in Africa's Gold Coast from the 10th through the 19th centuries, the radical hyperstition of the Black-Scholes financial model, the play-to-earn DeFi gaming economics currently wreaking havoc in the Philippines, and the jet fuel futures market that underpins almost all contemporary airline industry pricing. Each of these case studies will focus on relationships between price, value, underlying asset, and volatility (via time, labor, or alternative frictions). Accompanying readings from Elena Esposito and Suhail Malik ground these case studies in theory.

Western media decides which faiths deserve attention â€” and which suffering can be ignored. Now, that silence is breaking.

Through archival footage, firsthand testimonies, and places rarely shown on screen, this film examines the global persecution of Christians â€” from burned villages in Nigeria to erased communities in the Balkans. It looks at how violence is explained away, how narratives are shaped, and how one of the world's largest religious groups became invisible in plain sight.

At the center of the story is faith itself — as a way of life. From communities targeted for their beliefs to those who quietly preserved them despite war, sanctions, and political pressure, the film follows a line that connects Africa, the Middle East, Europe, and the West.

Why are attacks on Christians so often reframed, minimized, or dismissed?
Why do some victims make headlines — while others barely exist? And what happens when faith itself becomes the target?

added a little somethings from yesterday:

Another wandered off into the woods of Maine and claimed to have prophetic dreams from the friend, but -----47:03----- had no success in reestablishing the friend's cult. The Society of Universal Friends continued to exist all the way until 1874, but mostly as a charity, losing its remaining religious trappings just a few years after the Friend's death. To start a successful cult, you don't need a charismatic leader. Or rather, you do, but that's not all you need. You need two charismatic leaders. You need the visionary and the successor. Ideally, the second one should be even more charismatic. To build a movement as powerful as, say, Mormonism, which began not too far away from where the public universal friend died just a few decades later, you need not just Joseph Smith, but also Brigham Young. You need George Fox and William Penn. You need Elron Hubbard and David Mscavage. You need Jesus and the apostles. You need Elazar Yukowski and Scott Alexander. You need the great peacemaker and Hayawa. You need Wallace Farard Muhammad and Elijah Muhammad. You need Marks and Engles. That dynamic, the creator of it all and their smartest, most gregarious, most devoted follower is all you need to start a movement that lasts even after the successor figure is long gone. You only need one smooth transfer of power for the mandate of heaven to transubstantiate from you to your followers. Your beliefs can be as crazy as you want. But what decides whether a distinctive movement lives or dies is the charisma not of the leader, but of the leader's chosen successor. Otherwise, when death inevitably comes, everyone just stands around the grave of the leader, hoping against hope that they'll return from the dead. Nobody has the authority to say our leader will be back eventually or their body may be dead but their words live on so march on. William Potter could have taken up the public universal friends legacy since he purportedly reconciled with the friend right before the friend's death. But another issue that prevented the public universal friends movement from outliving the friend was that they really weren't cultlike enough. The other thing a successful cult needs is something weird that separates insiders and outsiders. You need Zenu. You need a fundamental belief so strange that only those who are truly committed devote themselves to it. The public universal friend being a genderless divine entity who possessed the body of the deceased Jamaima Wilkinson fits the bill. But the whole rest of the friend's theology was bog standard Quakerism.

If William Potter had taken the reigns, the Society of Universal Friends would have just been a Quaker offshoot, different from the main stem only in having the word universal in its name. And the reason it was separate from the rest of the Quakers would be a [clears throat] strange historical footnote. Perhaps so many people left simply because it was easy to leave.

If you hear about the public universal friend today, it's as a non-binary pioneer. Once again, the friend may have been the first individual person referred to in English with they them pronouns or possibly a trans mask pioneer because many of the friend's followers consistently refer to the friend as a he. [clears throat] We draw a line from the public universal friend directly to queer icons like Genesis Poridge. As if that's one consistent phenomenon. As if we in 21st century blue America have finally found the correct way to slice and dice the vast n-dimensional hyper cube of how culture interacts with gender. As if every one of the rainbow of gender identities that has a pride flag now has always existed in every culture. As if there must have been as many public universal friends in the 1700s as there are they thems watching this video now. And it's only because of oppression that we don't know --- 50:48 ----- about them.

Ry: It looks like Epstein created Pol on 4chan and with that Nick Fuentes and groypers. They needed toxic white nationalist trash to poison the anti-Zionist movement. Now it makes sense why a French pedophile sent Nick a quarter million dollars in BTC.

At the same time Canada's Ezra Levant sponsors Tommy Robinson to make aany and all discussion about the UK's borders into a mess of xenophobic anti-muslim bigotry.

And Epstein cohorts Morgan McSweeney (the Steven Bannon of the labour party) and Peter Madelson gutted the labour party by smearing Jeremy Corbyn as an antisemite so they could move him out of the way and replace him with globalist yes-man Keir Starmer.

Zionist billionaires often also pedophiles, are controlling your heads of state and borders.

They're COMING AFTER Francesca Albanese "Protect her at ALL costs -- DiEM25 -- 238K subscribers
-- 1514x in a few hours ... Feb 13, 2026

As Francesca Albanese prepares to deliver her eighth report to the United Nations on the situation in the Occupied Palestinian Territories, a familiar pattern unfolds: smear campaigns, manufactured outrage, and coordinated calls for her resignation.

Why? Because her reports expose uncomfortable truths about violations of international law, the suffering of Palestinians, and the political and economic interests that sustain the occupation.

In this message, Yanis Varoufakis expresses his unequivocal support for Francesca Albanese and warns those seeking to remove her: silencing a UN mandate holder will not silence the truth. If anything, it will amplify it.

Ryan Dawson: Stop saying Virginia was killed. You are scaring the shit out of the other victims. I've been calming down panicked women all day.

This isn't some joke. THINK before you write stuff. These are real people. has a family. I really hate conspiracy kooks.

You do not know the full extent of this story. Trust me you don't. And you don't have to but you do know that you don't know so stop flippantly guessing just because it good for the memes.

I swear our social society is pure rot. People will do anything for clicks. Stop monetizing other people's suffering. Virginia was absolutely heart broken. Devastatingly hallowed.

She is a huge reason why Epstein and Maxwell and Brunel all landed behind bars and why prince Andrew lost 16 million. She did great damage to the pedophile network. But they also did great damage to her. Don't lie about her life or her death.

She had kidney problems and that's not related to the bus accident. It's just something they discovered because of the accident.

She wasn't doing well that's all I will say. And it was not a surprise to me at all that she took her own life. She had a 5 year nightmare with serial rapists. Honor what she did. She took them down.

It damaged her. Other things did too but this this was a broken and rebuilt person. She jailed 3 of them and sued others. She brought closure to hundreds of women. She took on a team of lawyers with nothing and won. Never forget her courage and sacrifice. --- RIP

You could absolutely never get that much clothing in a cell if you are on a max suicide watch. There is also no way that the camera was not gonna be working...when you get a high profile inmate you make sure weeks in advance that the cameras being used on him are all in working order...and if you are assigned to his cell as a correctional officer you are not falling asleep and you are making your half hour rounds. Ryan: The world is just groups of men vying for power.

Bankers vs technologists vs politicians.

Women aren't even in the game.

Female empowerment is a scam by men used to hurt other men. Females have zero power.

They're pawns on the board.

This is what a world without honor dissends to, dog eat dog. The force that is suppose to create a civil agreement and rule of law is the love of our children. Childless monsters forego fatherhood to maximize hedonism. Even some of those who have kids simply neglect them to chase self pleasure.

Imagine traffic with no rules. No one would be able to go anywhere. We agree to rule sets bc in the chaos without them nothing works.

Paradoxically some restrictions actually give you more options not less. But this only works if everyone agrees to follow them. One person driving on the wrong side of the road threatens everyone.

Yet we let females drive.

Equality under the law means even and equal enforcement. No country has this. Some are worse than others.

Gi. Without honor their is no moral glue, no rule of law. It's all chaos at the top and this will inevitably invite violence because absence of law violence is the last path to justice.

Violence isn't wrong. It's necessary. The ones telling you it is an unequivocal evil are the same ones breaking all the laws!

Russian Position:

Russian officials, including Sergey Lavrov and Maria Zakharova, have reiterated that no NATO or Western European troops will be accepted in Ukraine. Any foreign troops deployed would be treated as legitimate military targets. Russia demands security guarantees, including preventing weapons deployments in Ukraine that threaten Russia and protecting Russian-speaking populations.

NATO Response:

NATO Secretary General Mark Rutte dismissed Russian statements, emphasizing that a U.S.-led peace process is underway. Ukraine must receive "credible security guarantees." ---He largely refuses to engage directly with Russian rhetoric.

Financial Interests Argument:

The guest argues that major financial institutions "including Rothschild & Co (advising Ukraine's finance ministry and managing Ukrainian debt) and BlackRock (involved in reconstruction planning)" are deeply tied to Ukrainian bonds and reconstruction funds.

Hundreds of billions in Ukrainian debt are held largely in Europe. European governments have guaranteed IMF and World Bank loans. If Ukraine collapses or repudiates debt, Europe could face a fiscal crisis. Rising bond prices on hopes of peace create profit incentives to keep the system going.

Narrative vs. Battlefield Reality:

The speaker criticizes NATO claims that Russia is suffering catastrophic losses (Rutte compared Russia's advance to a "garden snail"), arguing Russia maintains a manpower and firepower advantage. Continued Russian recruitment contradicts claims of devastating losses. Western leaders may be clinging to a narrative that Russia will weaken economically and politically.

Ukrainian Exhaustion:

A former spokesperson for Volodymyr Zelenskyy, Yulia Mendel, reportedly wrote that Ukrainian resilience is overstated and that civilians are exhausted, facing infrastructure collapse and mass displacement.

Broader Argument:

The guest contends that western policymakers believe prolonged war will eventually destabilize Russia economically and politically. This assumption ignores historical precedent – Russia has endured extreme hardship without regime collapse. Meanwhile, Europe's economy may be more vulnerable than Russia's. If Ukraine collapses, European financial exposure could trigger serious fiscal consequences.

Overall Summary:

The conversation portrays Western leaders as ignoring Russian security red lines and battlefield realities while sustaining the war partly due to financial entanglements and debt exposure. It argues that hopes of weakening Russia economically are unrealistic and that Europe may ultimately face greater financial risk if Ukraine fails.

it's Philip K Dick's universe, we're just squatting it.

the imagined threat (or promise) of superintelligent AI is being used to distract from the unpleasant reality: that the AI algorithms that have directed the investment decisions of the corporate world for decades, which have strong second-order impacts on the news cycle, have begun eating themselves in a process called model collapse (Habsburg AI) - and that the entire egregore of AGI only exists as cover for the precrime surveillance state the public would ever voluntarily enter (let alone hand over all our natural resources, power generation capabilities, and money to). we are drowning in slop and the only exit being presented to us is to merge with the machines. do not give Big Parasite the keys to your cognitive castle.

Mark 37m doin a stupid les wexner defense

<https://chuckbaldwinlive.com/Articles/tabid/109/ID/4801/Top-Epstein-Historian-Blows-The-Whistle.aspx>

Dawson: In the beginning it was mostly Les Wexner. I can give you a background on him too. Les Wexner. I mean, sweetheart deal aside, you can still boycott Victoria's Secret. You can boycott Seagram's liquor. You can at least avoid the products of the people involved in this. Plus, they're prominent Zionists that support genocide and shooting babies anyway. So, that's enough reason, in

league with Jeffrey Epstein.

He got a lot of money principally from I'd say his top three, well, obviously Wexner and Bronfman and then Leon Black and then Glenn Dubin. That was his principal financing. And then a lot of it he got illegally. And his companies he was able to get huge tax breaks for. For

example, in the Virgin Islands, \$300 million in tax breaks simply by bribing or blackmailing. We don't know which one but using his skills to get the legislators to change the rules for him.

Judge Nap: Let's go to the attorney general. Did she fail to prosecute Epstein and others for crimes committed under her jurisdiction when she was the attorney general of the state of Florida?

Dawson: She did. Well, it's hard to know how much her arm was twisted. Everybody (except for Donald Jr., I guess) in those clips when they were asked, "What's important to you?" What did they say? Their relationship with Israel. That's all they care about.

They probably looked at the list, found out it went back to Israel, and that was it. The list was gone. And the list was gone the day Netanyahu came to visit. Again, he said, "Get rid of it." And they did.

Judge Nap: What is the connection to Israel? Was Epstein a Mossad asset?

Dawson: A thousand percent he was. First off, Epstein did not create this kompromat ring. He walked into a preexisting nexus. They've been doing this. And if anybody's like, "Oh, our greatest ally. Would Israel really run an operation that included child rape?" Israel shoots children. Israel shoots people in line begging for food. And Israel is the go-to haven for pedophile refugees. They all know, if you get caught, you can flee to Israel and get away with it.

Judge Nap: Was he [Epstein] entrapping people for Israel's political purposes? Was he a paid Mossad agent? Was he passing small talk that he had with whomever? You mentioned Bill Clinton, Bill Richardson (who's now dead). Was he passing that information on to his Israeli superiors?

Dawson: Israel has everything he had. They were supposed to be spying on US science and tech and stealing trade secrets, and they did. The kompromat was part of that operation. But Epstein was a money launderer. He would just use blackmail on tax collectors and legislators and get the rules changed.

Judge Nap: What was Attorney General Bondi referring to when she told Fox News the list was on her desk?

Dawson: I don't think she had looked at it. They all assumed there was a list because online, like in the Twitter sphere, everyone talks about the list. There never was a list. The only list is the list I made. I mean, Maxwell would have a lot of it.

So, she said, "It's there for review." So, apparently, they hadn't reviewed it. Why even bring it up if you're going to rug pull like this?

This all happened in Trump's first term. His son made a mistake when he said, "Nobody's been arrested." Four people were arrested. Three of them are dead. Jean-Luc Brunel was arrested. He apparently killed himself in a jail in Paris. That's how I first got on to

Epstein was following Jean-Luc Brunel. There was even a 60 Minutes piece about him probably 30 years ago. He was a modeling agent. First, he started at Karin Models, which is straight out of Tel Aviv. He got in a little trouble. They renamed it MC Square, and then he opened offices in America. This is somebody that trafficked women to Epstein, and Epstein trafficked women to him. He was arrested, and he did go to jail. This person is part of this Mossad nexus.

Now, you asked me earlier, "Well, how do we know he was Mossad?" A lot of people will point to, "Well, Acosta said this and that." People said that Acosta said that "I was told to back off, that he's intelligence."

Judge Nap: Now, Acosta is the former U.S. attorney in Florida who prosecuted (I say in quotes; it really went nowhere) Epstein, who became the Secretary of Labor in Trump's first term. Do I have that correct?

Dawson: That's true. It is said that he said, "I was told to back off. This guy is intelligence and above my pay grade."

Judge Nap: Does Benjamin Netanyahu fear the revelation of a list of Epstein's clients?

Dawson: Epstein knew four Israeli prime ministers. He knew Peres. He knew Ehud Barak. He knew Ehud Olmert. He also knew Moshe Katsav, the president of Israel. He knew Netanyahu. Moshe Katsav got convicted of rape in Israel, an Israeli president. He was the president when Ehud Barak was the prime minister.

And Ehud Barak is witnessed outside of Jeffrey's rape mansion in New York going in as a bunch of little kids are going in there with him. And he denies, "I never saw him with the girls." He's a liar.

And he was financed by Wexner and Bronfman as well. See, Les Wexner has something called The Wexner Foundation. And Jeffrey Epstein was put on the board of trustees of the foundation.

There's a lot of Jewish diaspora that donate to candidates in Israel who don't live in Israel. They do it through advertising funds. It's the same workarounds that happen in America. And through this security firm called Reporty, which got renamed to Carbyne, millions of dollars went to Ehud Barak's campaign from The Wexner Foundation. He also got a lot of money from Charles Bronfman of Seagram's Liquor fame that's tied to John McCain and The Lincoln Project. Charles Bronfman got a little finger waving for that. But this is the head of the "they've changed the name, but at the time it was the United Jewish Appeal.

The mirror to that was the United Israel Appeal. That was set up by a Haganah terrorist, Abba Hillel Silver, and Ted Kulik was part of that too. These are the people that were illegally smuggling weapons to early Israel, including highly enriched uranium. But that was out of the Jewish Agency.

Dec 29, 2025 ----- I came across something recently I was hoping that someone will do for a while. An AI tool that has many of the advantages of the mainstream AI's like Grok have while deliberately circumventing lies, propaganda and "Hallucinations" that are obviously deliberately build into such mainstream tools.

It is called WEBB and can be found here:

Webb - Document Intelligence

www.thewebb.io www.thewebb.io

It is supposed to go live soon and could revolutionize how ordinary people can use AI without getting fed a bunch of lies that things like Grok will present and reinforce. Furthermore, it is also deliberately made open source so that it should, at least in theory, get better and better over time, although it already seems to be a

stunner! I think it could be especially interesting to researchers like @Laura and others trying to use AI tools and capabilities to their advantage. It perhaps already is and/or will develop into a true resource of truth in the world.

Ian Carroll together with 2 of his friends are the people who have created it. The following video starts at the point where Ian Carroll presents it and what it can do:

the beginning of the Reign of Terror, the

an age of illiteracy debated theology with
his Christian neighbors and delved into the

Why has anti-Zionism become a moral creed in Western
academia?
Why do elections now feel existential?
And what does the hostage crisis reveal about Israeli
society?

In this episode of Quillette Cetera, Zoe Booth speaks

legacy of 9/11, campus radicalism, demographic decline,

Anti-Zionism and the moral politics of 9/11
Why Western elites excuse hostility toward Jews
The transformation of universities and intellectual life
Islam, assimilation, and identity politics
Israel's hostage crisis and political fracture
Fertility decline and meaning in modern societies
Whether liberal democracy is breaking down
Is the post-1945 democratic order ending? Or was it
always the exception?

Where do little grey men come from? Aleister

Wells === Terry Wolfe == 3.53K subscribers -- 629

Where do little grey men come from? What are
aliens? Why do the depictions and sightings of
aliens coincide with the sketch made by Aleister
Crowley in the early 1900s of a demonic being
known as "Lam"? This is a response to Luke from
Voice of Reasons' video "The Truth About
Aliens". Luke says that aliens are demons, and
that the alien phenomena is trying to cover up or
reinterpret classic demonic experiences by giving
it a science fiction twist.

Who is "Lam"? What does its name mean? It's
connected with Helena Blavatsky and has a
Tibetan meaning that Crowley himself
acknowledged. But was there something before
Crowley's supposed ritual that better explains
where our understanding of aliens and their
appearance come from? Including flying ships
and extreme technology from another planet?

Of course there is. H.G. Wells was a famous
science fiction author from England who wrote
"War of the Worlds" decades before Crowley's
supposed encounter with Lam. In this video we
examine the similarities and track the events of
two British propagandists with different
agendas.

There are many misconceptions surrounding Judaism,
and many details about it that are not known to the
general public. Today, I outline some of the problematic
aspects of Rabbinic Judaism and demonstrate how the
true religion of Israel is fulfilled in Orthodox
Christianity, not Judaism.

Ryan: Jewish doesn't equal Zionist.

I get that but can we really pretend that the belief in Judaism has nothing to do with the concept of entitlement to the "holy" land for a particular ethnic group? Zionism is a natural by product of Judaism. You can't fully divorce the two. Mythology shouldn't be a racial identity.

Of course Jews and Zionists are different groups. But it's like there are no witch burning without first the belief in witches. You can't have Zionism without Judaism. The Jewish religion, if read without mental gymnastics, IS barbaric.

The idea that we must respect a religion no matter what it is says because it's a religion, is a recipe for allowing psychopathy a pass so long as it wraps itself in supernatural dogma.

Dr Dani Sulikowski is an evolutionary psychologist,
professor, and researcher.

Female intrasexual competition is more ruthless than
most people realise. Just when we think we understand

how women compete with one another, the rules
shiftâ€”and the limits move. So how intense is female
intrasexual competition really, and what has social media
done to amplify it?

Expect to learn what female intrasexual competition is
trying to achieve and how it differs from males, why
Vogue Magazine said having a boyfriend is cringe now
and Dr Sulikowski's response to that, if reproductive
suppression works against men, what some of the more
under recognised methods of intrasexual competition
that women engage in are, if there are any societal shifts
that people are pinning on men that you think are more
due to female intrasexual competition and much moreâ€”

Rupnow. Would you like to set the record straight on that? I know you deactivated because you were getting a

ton of hate on X.

RFH: [I've edited down this answer because RFH had some strong words about the people who allegedly spread the rumor, making claims about their own alleged misconduct and motivations. As these are claims that I can't independently verify, I've chosen to omit them here.]

Yeah. I mean, it's completely fake; the screenshot's fake. The full manifesto (credit for uncovering this manifesto goes to independent journalist Anna Slatz) was posted and it doesn't mention me at all. It mentions a bunch of white nationalist males that shot up some schools in Europe. So, it had literally nothing to do with me. Some guy made it up.

The only reason I deactivated is because I've been online long enough to know that truth doesn't matter when a rumor that salacious is going like wildfire. It's not going to matter what the truth is, so I knew nothing I was going to say was going to convince anyone who wanted to be convinced of this fact, so I knew the best course of action was just to immediately deactivate and come back later when I felt comfortable to do so. So that's what I did.

JM: Do you have any advice to offer to women on how to avoid falling into these weird pits of the internet that can ruin your life or do you have anything to say to people who completely misunderstand your purpose as a figure online?

RFH: I'd tell the right-wing women who follow me and are kind of curious but not sure of me to read â€œRight Wing Womenâ€ by Andrea Dworkin. I've talked about this book before, but it really is so on the nose, and it's crazy because she wrote it in the 70s, and it's crazy how true it still is today. I remember when I was becoming very disillusioned with the right and how they treated women and asked myself why I was so involved in this, "why would I put up with this kind of treatment for all these years?" That book completely explains our psychology and our reasoning for why this happened and why we have the politics that we have. So, it's a really great book; it really breaks it down. She will forever be so on the nose and poignantâ€very, very intelligent woman. I would really recommend that women read that. It's a great book, and it is still so relevant, probably even more so today.

You can subscribe to RFH's Substack and follow her on X, where she has carved out a space for herself as one of the most influential voices in the gender discourse space. Love her or hate her, her impact as a poster is undeniable. The ratio of sincerity to tongue-in-cheek satire in her tweets can be difficult to discern, but it's also a good litmus test for whether you really â€œgetâ€ RFH or her commentary. She doesn't exist in a vacuum, and the kernels of truth at the heart of her most provocative posts are never more obvious than in the outrage they provoke. RFH posting is an artform. She's a reaction, a mirror, and a reckoning.

Despite Israel's ongoing, verified violations of the Gaza ceasefire, the Trump administration continues to back the Netanyahu government and claim that the ceasefire remains intact.

Trump himself has repeated unverified claims about Hamas killing an IDF soldier to endorse the strikes.

Is Beauty a Form of Knowledge? Plato, Kant, Jung & the False Dichotomy

flowersRblooming == 2.65K subscribers -- 435x /// Mar 1, 2026 #PhilosophyEssay #Aesthetics #Kant

What is beauty? A superficial aesthetic property or a form of knowledge?

In this video I make a philosophical exploration - based on my personal reading and interpretation - on how beauty became historically subordinated to reason, creating a false dichotomy between the two. From Plato and the Greeks, through Kant and Romanticism, to Jung's symbolic legacy. This serves as introduction for my next video on MarÃa Zambrano's â€Poetic Reason', where I'll expand on the idea that beauty and rationality are not opposites, but part of the same cognitive process.

Flavius Josephus: the complete biography of the most contradictory man in biblical history. Priest, general, traitor, and prophet how did one man betray his people, survive a suicide pact, prophesy Rome's future, and write the books that prove Jesus existed?

In this investigative documentary, we tell the full story of Josephus (Yosef ben Matityahu), from his birth into a priestly family in Jerusalem to his death in Rome as a protégé of the emperors. We explore the siege of Jotapata and the infamous death lottery, the prophecy to Vespasian, the destruction of the Temple of Jerusalem in 70 AD, and the writing of Jewish Antiquities including the Testimonium Flavianum, the earliest reference to Jesus outside the Bible. We analyze the latest 2025 academic discoveries that are reshaping the debate over the authenticity of this text and its direct connection to the trial of Jesus. Josephus and the Bible, The Jewish War, Josephus the Jewish historian all in one complete documentary.

i smell the treason and treachery only a mixblood is capable of this vid starts with some datapoints
about his birth being a legit set-up for 'greatness'.

this guy has Ralph Ellis beat when it comes to putting across essentials crisply ... and right up front at
that

.... but Ralphie does manage to underline, emphasize and even double the triplicit and/or quadruple
monomaniae this video traces: Josephus moving among alleging / alledging loyalty in turn to jews, to
militant jews, to bookish jews, to rome.

Ralph tops it off with jesus and christianity as follows:

Joseph rescues jesus and wisks him to his [tin]trading post in the UK
or

Joseph as Saul/Paul hi-jacks Jesus, holds him for ransom and/or as bargaining chip with the rebels following him, but also eviscerates, that is, 'christens', that is deifies him [turns a practical man into a one and only miracle man which of course, precludes followers of that doxtroonitoo to respect any and all Jesuslike people, even prosecute and harass the hell into them for the sin of impersonation .. or something].

Now that's Ralphie beating this historian over the head w and on points of intrigue scored.
